Telegraph Committee, Defense  
Communications Board . . . . R. H. Vehling  
Telephone Committee, Defense  
Communications Board . . . . Ralph L. Mabbs . . . . Clyde S. Bailey

## PRIORITIES LIAISON COMMITTEE

The duties of this Committee include the study of non-military priority problems that arise in the current work of priority ratings for materials requiring inter-departmental coordination, and such special problems as may be referred to it by the Board of War Communications or the Co-ordinating Committee. In addition, the committee will have liaison with the Priorities Planning Committee and may call upon the priorities representatives of the numbered committees of the Board as well as other Government and industry experts for advice.

Chairman: Lt. Comdr. B. H. Griffin      Secretary: Gerald C. Gross

<b>Organization</b>	<b>Representative</b>	<b>Alternate</b>
Federal Communications Commission	Gerald C. Gross	Manfred K. Toeppen
Navy Department	Lt. Comdr. R. H. Griffin	
State Department	J. T. Keating	Harvey Otterman
U. S. Coast Guard	Lt. Comdr. J. W. Ryssy	
War Department	Lt. Col. Lyle D. Wise	
War Production Board	Leighton H. Peebles	Capt. John G. Hubbard

# CODE OF WARTIME PRACTICES FOR AMERICAN BROADCASTERS OFFICE OF CENSORSHIP

---

**EDITION OF FEBRUARY 1, 1943**

---

**T**HIS is the second revision of the *Code of Wartime Practices for American Broadcasters*. It combines original provisions with supplemental suggestions and interpretations which have developed out of our experience during a year of war. It supersedes all other releases of the Office of Censorship to this date of issue.

The principle of censorship remains the same. It is voluntary and broadcast management is responsible for fulfilling the function in its own medium. The broadcasting industry, to this end, should be constantly aware of the dangers inherent in (1) news broadcasts; (2) routine programming; and (3) commercial copy.

To combat these dangers effectively, broadcast management must be in complete control of all programming every minute of every day of operation. This responsibility should not be delegated to anyone over whom the management does not exercise control.

The facilities of the Office of Censorship are at the disposal of broadcasters 24 hours a day, to assist them with consultation and advice when any doubt arises as to the application of this Code. The following are the principal advisory guideposts (as revised) which are intended to aid in discharging censorship responsibilities:

## I. NEWS BROADCASTS AND COMMENTARIES

Broadcasters should edit all news in the light of this Code's suggestions and of their own specialized knowledge, regardless of the medium or means through which such news is obtained.

Special attention is directed to the fact that all of the requests in this Code are modified by a proviso that the information listed may properly be broadcast when authorized by *appropriate authority*. News on all of these subjects will become available usually from Government sources; but in war, timeliness is an important factor and the Government unquestionably is in the best position to decide when disclosure is timely.

It is requested that news in any of the following classifications be kept off the air, unless released or authorized for release by appropriate authority:

(a) WEATHER.—All weather data, either forecasts, summaries, recapitulations, or any details of weather conditions.

Stations should refrain from broadcasting any news of weather occurrences, such as blizzards, snowstorms, tornadoes, hurricanes, etc., unless it is specifically authorized for broadcast by the Office of Censorship. Occasionally, it is possible to clear such news, but for security reasons this office cannot authorize blanket clearance in advance. Each case must be considered individually in the light of the extent to which the enemy will be benefited if such information is broadcast. Confusion and inequalities of competition can be avoided if stations will consult the Office of Censorship promptly in all such cases, either directly or through their news service.

*Exceptions:* Emergency warnings may be broadcast when specifically released

for broadcast by Weather Bureau authorities.

Information concerning hazardous road conditions may be broadcast when requested by a Federal, State or Municipal source, if it avoids reference to weather.

**NOTE.**—Special events reporters covering sports events are cautioned especially against the mention of weather conditions in describing contests, announcing their schedules, suspensions, or cancellations. These terms may be used: "Game called because of weather"; "wet grounds"; "muddy field". Terms such as "clear", "rain", "windy", "overcast", etc. are an index to weather conditions over a large area and should not be employed.

(b) ARMED FORCES.—Type and movement of United States Army, Navy and Marine Corps units, within or without continental United States including information concerning—

- Location.
- Identity.
- Composition.
- Equipment.
- Strength.
- Destination.
- Routes.
- Schedules.
- Assembly for Embarkation.
- Prospective Embarkation.
- Actual Embarkation.

Such information regarding troops of friendly nations on American soil.

Revelation of possible future military operations by identifying an individual known for a specialized activity.

*Exceptions:* (1) ARMED FORCES IN THE UNITED STATES: Troops in training camps in United States and units assigned to domestic police duty, as regards location and general character (other than service men on duty on anti-aircraft, coastal or invasion defense or at embarkation points, whose unit identifications should not be given).

(2) ARMED FORCES OUTSIDE THE UNITED STATES:

Names and locations (without unit identification) if presence of United States forces in area has been announced officially.

Individual addresses if they are limited to APO numbers or Navy Fleet Post Office (without unit or ship identifications).

Names of Naval personnel without mention of their ships, unless said ships have been announced by the Navy as lost or damaged.

(c) SHIPS (CONVOYS, ETC).—Type and movements of United States Navy, or merchant vessels, or transports, of convoys, of neutral vessels, or vessels of nations opposing the Axis powers in any

waters, including information concerning—

- Identity.
- Location.
- Port of Arrival.
- Time of Arrival.
- Prospect of Arrival.
- Port of Departure.
- Ports of Call.
- Nature of Cargoes.
- Assembly.
- Personnel.

Enemy naval or merchant vessels in any waters, their

- Type.
- Identity.
- Location.
- Movements.

Secret information or instructions about sea defenses, such as—

Buoys, lights and other guides to navigators.

Mine fields and other harbor defenses.

Ship construction—

- Type.
- Number.
- Size.
- Location.

Advance information on dates of launchings, commissionings.

Physical description, technical details of shipyards.

Movement of diplomatic exchange ships under the direction of the State Department.

*Exceptions:* Movements of merchant vessels on Great Lakes or other sheltered inland waterways unless specific instances require special ruling.

(d) DAMAGE BY ENEMY LAND OR SEA ATTACKS.—Information on damage to military objectives in continental United States or possessions, including—

- Docks.
- Railroads.
- Airfields.
- Public utilities.
- Industrial plants engaged in war work.

Counter-measures or plans of defense.

Appropriate authority: for information about damage from enemy attacks to military objectives on land within continental United States or possessions is the commanding officer in the zone of combat, or the Army Bureau of Public Relations, Washington. (For the Hawaiian Islands, the Navy).

(e) ACTION AT SEA.—Information about the sinking or damaging from war causes of war or merchant vessels in any waters.

Appropriate authority: Appropriate authority for the release of news about the sinking or damaging of naval or merchant vessels in or near American waters

is the Naval Office of Public Relations, Washington; for results of United States naval action against enemy vessels in or near American waters, the commanding officer of the district in which the action occurs, or the Naval Office of Public Relations, Washington.

(f) ENEMY AIR ATTACK.—Estimates of number of planes involved; number of bombs dropped; damage to—

Fortifications.

Docks.

Railroads.

Ships.

Airfields.

Public utilities.

Industrial plants engaged in war work.

All other military objectives.

Warnings or reports of impending air raids; remote ad lib broadcasts dealing with raids, during or after action.

Mention of any raid in the continental United States during its course by stations OUTSIDE the zone of action, unless expressly announced for broadcast by the War Department in Washington.

News which plays up horror or sensationalism; deals with or refers to unconfirmed reports or versions; refers to exact routes taken by enemy planes, or describes countermeasures of defense, such as troop mobilization or movements, or the number and location of antiaircraft guns or searchlights in action.

*Exceptions:* After an air raid, general descriptions of action after all-clear has been given. Nothing in this request is intended to prevent or curtail constructive reporting or programming of such matters as feats of heroism, incidents of personal courage, or response to duty by the military or by civilian defense workers.

(g) ACCREDITED MILITARY AND NAVAL CORRESPONDENTS.—No provisions in this Code of Wartime Practices for American Broadcasters modify obligations assumed by accredited correspondents who accompany Army or Navy forces or are given special accrediting by the War or Navy departments to visit restricted areas in the United States.

These commitments, under War and Navy department practice, pledge such correspondents to submit to censorship anything they write in zones of combat or restriction, or what they may write at a later date as result of their observation in these zones. The military department concerned is the censorship agency for all such material.

In case of a protracted enemy attack on the continental United States, necessitating military declaration of a combat zone, censorship within such an area would, of necessity, be by military au-

thority. Accrediting of news gatherers for such a zone will be as in any other combat area. In the case of such an attack and declaration of a military zone of combat, the requests in this Code remain applicable to broadcast operations outside the declared area.

(h) PLANES—

*Air Units.*—Military air units of the United States and the United Nations as to—

Disposition.

Missions.

Movements.

New characteristics.

Strength.

Information concerning new military aircraft and related items of equipment or detailed information on performance, construction and armament of current military aircraft or related items; military activities of commercial air lines or the Civil Air Patrol.

(i) FORTIFICATIONS AND AIR INSTALLATIONS.—Location and description of fortifications, including—

Coast Defense Emplacements.

Anti-aircraft guns and other air defense installations.

Defense Installation details of public airports used for military purposes.

Camouflaged objects.

Location of specially constructed bomb shelters.

Location of civilian defense communication control centers.

Information concerning installations by American military units outside the United States.

(j) SABOTAGE.—Specifications (including information on bottlenecks) which saboteurs could use to damage war production plants, transportation lines, public utilities, or other military objectives; any information indicating sabotage to them. In reporting accidents, no mention of sabotage should be made except on appropriate authority of the military agency concerned or the Department of Justice.

(k) PRODUCTION. (see also SABOTAGE)—Roundups—Collected data on a nationwide scale disclosing production progress or capacity in connection with ordnance, planes, war vehicles or other munitions.

Secret designs—New or secret military weapons, designs, formulas or experiments connected with war production.

Plants—Floor plans or arrangement of war production plants; capacity of plants; actual or prospective progress of production, including revealing employment figures.

Statistics—Statistical information disclosing the amounts of strategic or criti-

cal materials produced, imported or in reserve—such as tin, rubber, aluminum, uranium, zinc, chromium, tantalum, manganese, magnesium, tungsten, silk, platinum, cork, quinine, copper, optical glass, mercury or high-octane gasoline.

**Transportation**—Movement or transportation of munitions within the United States.

**Lend-Lease-Production**. Method of delivery, destination, routes or transportation of Lend-lease war material.

(l) **UNCONFIRMED REPORTS, RUMORS**.—The spread of rumors in such way that they will be accepted as facts will render aid and comfort to the enemy. The same is true of enemy propaganda or material calculated by the enemy to bring about division among the United Nations. Enemy claims of ship sinkings, or of other damage to our forces should be weighed carefully and the sources clearly identified, if broadcast.

Caution is advised against reporting, under the guise of opinion, speculation or prediction, any fact which has not been released by an appropriate authority.

(m) **COMBAT ZONE INTERVIEWS AND LETTERS**.—Interviews with service men or civilians from combat zones (including accounts of escapes from foreign territory) should be submitted for review before broadcast, either to the Office of Censorship or to the appropriate Army or Navy Public Relations Officer. Letters from service men in combat zones are censored at the source, for home and family consumption only. When used on the air, broadcasters should measure the contents of such letters in the light of the provisions of this Code. In case of any doubt, consult the Office of Censorship. (See clause on Armed Forces, regarding unit identifications).

(n) **WAR PRISONERS, INTERNEES, CIVILIAN PRISONERS**.—Information as to arrival, movements, confinement, escape or identity of military prisoners from war zones; identity of persons arrested or interned as enemy aliens, or of persons moved to resettlement centers; locations or operations of war prisoner, or alien internment camps or resettlement projects; place of confinement of civilians convicted of treason, espionage or sabotage.

**NOTE:** The appropriate authority for information as to war prisoners or their camps is the War Department; for information as to resettled persons, the project official in charge; for information as to enemy aliens or their camps, or civilian prisoners described above, the Department of Justice. In any inquiry,

please make certain whether the individuals involved are military prisoners of war, enemy aliens or resettled citizens or aliens.

(o) **MILITARY INTELLIGENCE**.—Information concerning operations, methods or equipment of war intelligence or counter-intelligence of the United States or its allies; information concerning available or captured enemy codes or ciphers; or that gained from interception of enemy messages; or information concerning use of secret inks or chemicals or detection of these.

Information concerning secret detection devices.

Information concerning secret United States or Allied means or systems of military communication, including the establishment of new International points of communication.

(p) **WAR NEWS COMING INTO THE UNITED STATES**.—War information originating outside United States territory may be broadcast if its origin is made plain.

In any case of vital security involvement, the Office of Censorship reserves the right to request broadcasters to censor such incoming material on the basis of the Code requests if it is apparent that the information has come on to the United States.

(q) **GENERAL—Casualties**. Identification of combat casualties until made available for publication by the War or Navy Departments or the next of kin.

*Strategy*.—Secret war plans.

*Art Objects, Historical Data*.—Information disclosing the new location of national archives, or of public or private art treasures.

*Diplomatic Information*.—Information about the movements of the President of the United States (including advance notice of the place from which he will broadcast); information of official military, or diplomatic missions of the United States or of any other nation opposing the Axis powers—routes, schedules, destinations within or without continental United States; movements of other individuals or units on military or diplomatic missions.

Premature disclosure of diplomatic negotiations or conversations.

*Forest Fires*.—In reports of forest fires: descriptions of danger areas, weather conditions, activity or methods of saboteurs, organization or placement of special guards, damage or threat of damage to military objectives, or extent of smoke clouds.

## II. PROGRAMS

The following suggestions are made in order that broadcasters will have a pattern to follow in accomplishing the most important censorship function of program operation: keeping the microphone under the complete control of the station management, or its representatives.

(a) REQUEST PROGRAMS.—*Music*.—No telephoned or telegraphed requests for musical selections should be accepted. No requests for musical selections made by word-of-mouth at the origin of broadcast, whether studio or remote, should be honored.

*Talk*.—No telephoned or telegraphed requests for service announcements should be honored, except as hereinafter qualified. Such service announcements would include information relating to—

- Lost pets.
- “Swap” ads.
- Mass meetings.
- Personal messages.
- Club meetings.
- Club programs, etc.
- Vital statistics.

The same precaution should be observed in accepting “classified advertisements” for broadcasting.

No telephoned, telegraphed or word-of-mouth dedications of program features or segments thereof should be broadcast.

No telephoned, telegraphed or word-of-mouth auction bids, contributions or similar acknowledgments from listeners, should be broadcast.

*Exceptions*: Emergency announcements (such as those seeking blood donors, doctors, lost persons, lost property, etc.) may be handled in conventional manner if the broadcaster confirms their origin. They should emanate from the police, the Red Cross, or similar recognized governmental or civilian agency.

Service announcements may be honored when source is checked and material is submitted in writing, subject to rewriting by station continuity staff. Requests for the broadcast of greetings or other programs to commemorate personal anniversaries may be honored if the actual broadcast is not made on the anniversary date or at the time or on the date designated in the request.

ALL requests, subject to the above qualifications, may be honored when submitted via mail, or otherwise in writing if they are held for an unspecified length of time and if the broadcaster staggers the order in which such requests are honored, rewriting any text which may be broadcast.

(b) QUIZ PROGRAMS.—It is requested that all audience-participation type quiz programs originating from remote points, either by wire, transcription or short wave, should not be broadcast, except as qualified hereinafter. Any program which permits the public accessibility to an open microphone is dangerous and should be carefully supervised. Because of the nature of quiz programs, in which the public is not only permitted access to the microphone but encouraged to speak into it, the danger of usurpation by the enemy is enhanced. The greatest danger here lies in the informal interview conducted in a small group—19 to 25 people. In larger groups, where participants are selected from a theater audience, for example, the danger is not so great.

Generally speaking, any quiz program originating remotely, wherein the group is small, wherein no arrangement exists for investigating the background of participants, and wherein extraneous background noises cannot be eliminated at the discretion of the broadcaster, should not be broadcast. Included in this classification are all such productions as man-in-the-street interviews, airport interviews, train terminal interviews, and so forth.

In all studio-audience type quiz shows, where the audience from which interviewees are to be selected numbers less than 50 people, program conductors are asked to exercise special care. They should devise a method whereby no individual seeking participation can be guaranteed participation.

(c) FORUMS AND INTERVIEWS.—During forums in which the general public is permitted extemporaneous comment, panel discussions in which more than two persons participate, and interviews conducted by authorized employees of the broadcasting company, broadcasters should devise methods guaranteeing against the release of any information which might aid the enemy as described in Section I of the Code. If there is doubt concerning the acceptability of material to be used in interviews, complete scripts should be submitted to the Office of Censorship for review. (See paragraph (m) Section I.)

(d) SPECIAL EVENT REPORTING (ad lib).—Special events reporters should study carefully the restrictions suggested in Section I of the Code, especially those referring to interviews and descriptions following enemy offensive action. Reporters and commentators should guard against use of descriptive material which might be employed by the enemy in plotting an area for attack.

If special programs which might be considered doubtful enterprises in view of our effort to keep information of value from the enemy are planned, outlines should be submitted to the Office of Censorship for review.

(See also Paragraph (a), Section I.)

(c) SIMULATED AIR RAIDS, BLACKOUTS.—In view of the provisions contained in Paragraph (j) Section I of this Code, which prescribe radio silence at the scene of an air raid until the "all clear" is sounded, it is the belief of this office, in which the Office of Civilian Defense concurs, that broadcasting stations should not employ their facilities during a simulated air raid in any way which would encourage listeners to rely upon the medium for advice and assistance should an actual raid occur. This is intended to place no proscription on the legitimate broadcast of descriptions and commentaries dealing with simulated air raids and blackouts after the events have been conducted.

(f) COMMERCIAL CONTINUITY.—Broadcasters should be alert to prevent the transmission of subversive or restricted information through the use of commercial continuity in program or announcement broadcasts. In this connection, the continuity editor should regard his responsibility as equal to that of the news editor.

### III. FOREIGN LANGUAGE BROADCASTS

(a) PERSONNEL.—The Office of Censorship, by direction of the President, is charged with the responsibility of removing from the air all those engaged in foreign language broadcasting who, in the judgment of appointed authorities in the Office of Censorship, endanger the war effort of the United Nations by their connection, direct or indirect, with the medium. Bases of judgment in exercising this function will be twofold: (1) current material written for broadcast or broadcast over American facilities; (2) past and/or present conduct of the individual, including evidence substantiating his sympathy with the regimes of our enemies. This function of the Office of Censorship is not intended to relieve in any measure the full responsibility resting with the management of the foreign language broadcasting station to employ only those whose loyalty he does not question. There extends to such broadcast management the additional responsibility to report to the Office of Censorship the names of any personnel in this field who might be suspected for any reason.

(b) SCRIPTS.—Station managements are requested to require all persons who broadcast in a foreign language to submit to the management in advance of broadcast complete scripts or transcriptions of such material, with an English translation. (This procedure does not apply to programs originated and produced by the Office of War Information and distributed to foreign language stations). It is further requested that this material be checked "on the air" against the approved script and that no deviations therefrom be permitted. These scripts or transcriptions, with their translations, should be kept on file at the station.

(c) SUBMISSION OF SCRIPTS.—From time to time, the Office of Censorship will ask foreign language broadcasters to submit specified scripts to this office for review. When such requests are received, it is understood that the scripts in the original language, as well as English translations thereof, will be submitted. If a station obtains its foreign language program from another originating point via network, these requirements do not apply; in such event the originating station will be held responsible for fulfilling the requests contained herein.

(d) Station managements are reminded that all provisions of this code, as outlined in Section I and II, apply equally to foreign language broadcasting.

Broadcasters should ask themselves, "Is this information of value to the enemy?" If the answer is "Yes," they should not use it. If doubtful they should measure the material against the Code.

From time to time the Office of Censorship may find it necessary to issue further communications either to interpret certain existing requests, amend or delete them, or otherwise to cover special emergency conditions. Such communications will be addressed to managers of radio stations and networks and should receive preferential attention.

If information concerning any phase of the war effort should be made available anywhere, which seems to come from doubtful authority, or to be in conflict with the general aims of these requests; or if special restrictions requested locally or otherwise by various authorities seem unreasonable or out of harmony with this summary, it is recommended that the question be submitted at once to the Office of Censorship, Washington. Telephone Executive 3800; Teletype WA-434.

THE OFFICE OF CENSORSHIP,  
BYRON PRICE, Director.  
February 1, 1943.

*(Continued on Page 115)*

# THE FIRST WAR YEAR AT CBS...for the record

With the attack on Pearl Harbor the Columbia Broadcasting System dedicated itself to the single first task of making radio serve the cause of victory.

What CBS has achieved in this high purpose, as measured by the first full year of the war, is summarized concisely on the following three pages.

CBS believes that all who are interested in radio will honor this record.

# **DECEMBER 7, 1941... TO DECEMBER 7, 1942**

In the first full year of America's participation in the war, the Columbia Broadcasting System devoted to the war effort . . .

**over 36% of its total  
network operating hours . . .**

The Columbia Broadcasting System communicated to the American people . . .

**6,471 war programs  
3,723 war announcements  
4,158 war news broadcasts . . .**

These are striking totals. Yet the figures themselves give too little hint of the ingenuity, planning and labor that made these thousands of war-effort broadcasts pos-

sible. They cannot speak for the color, the variety, nor the way in which these broadcasts were keyed to 124 different formal war enterprises, as well as to countless less formal organizations or projects. Each of the 116 CBS stations played its individual—as well as its collective—part in this effort, with initiative and zeal becoming to a patriot.

Notable among these CBS war broadcasts were such distinguished and special war-enterprise programs as...

**An American in England**

**Calling Pan-America**

**The Commandos**

**F. O. B. Detroit**

**Hello Americans**

**Hello from Hawaii**

**Man Behind the Gun**

**The Nature of the Enemy**

**Report to the Nation**

**Spirit of '42**

**Soldiers With Wings**

**They Live Forever**

**The 22nd Letter**

**Womanpower**

On the next page there is evidence that others beside CBS have remarked what CBS has done (and will continue to do) to serve the cause of victory.

# AWARDS, CITATIONS AND HONORS...1942

*For Distinguished Service in the American War Effort*

AMERICAN WAR HEROES FOUNDATION  
Scroll to Ted Collins broadcasting on CBS.

BLUE STAR MOTHERS OF AMERICA Award of honorary life membership to Kate Smith broadcasting on CBS.

GEORGE FOSTER PEABODY AWARDS — 1942  
To CBS for patriotic service. To Norman Corwin's *We Hold These Truths*.

MOTION PICTURE DAILY (*7th Annual Poll of Radio Editors and Columnists*) First News awards to CBS. Award to *Cheers from the Camps*.

NATIONAL ASSOCIATION OF BROADCASTERS (*1st Annual Station Promotion Competition*) William B. Lewis Award for "most effective inspiration of the radio audience to continued support of the war effort" to CBS station KMOX, St. Louis. Certificate of Award to CBS station WBBM, Chicago, special mention to CBS station WEEI, Boston.

NATIONAL HEADLINERS CLUB Silver plaque to Cecil Brown.

NEW YORK WORLD-TELEGRAM (*12th Annual Poll of Radio Editors*) Cecil Brown's description of the sinking of HMS *Repulse* and *Prince of Wales* voted "the outstanding single broadcast" of 1942.

OHIO STATE UNIVERSITY (*Institute for Education by Radio*) First general awards to CBS. Honorable mention for *People's Platform*.

OVERSEAS PRESS CLUB ANNUAL RADIO AWARD To Cecil Brown for radio reporting.

RADIO EXECUTIVES CLUB OF NEW YORK Plaque to Paul White, CBS Director of Public Affairs, for "outstanding work in securing news broadcasts from various war fronts."

VARIETY (*6th Annual Showmanship Survey*) Plaque for "outstanding wartime service" and special award for "fostering racial goodwill and understanding" to five CBS stations. Special award to CBS affiliate WRVA, for "contributions to military-civilian understanding." Special commendation for contributions to war effort to individual staff members at WRVA, WBT, KMBC, KOIN, and WHP. Special commendation for good ideas applied to the victory effort, to WBBM and WCKY.

VARIETY (*Wartime Radio Showmanship Survey*) Scrolls of honor awarded to five programs on CBS for their handling of war messages.

WOMAN'S PRESS CLUB OF NEW YORK Certificate of merit to CBS for *They Live Forever*.

WOMEN'S NATIONAL RADIO COMMITTEE Honorable mention to four CBS programs, among them *Elmer Davis and the News*.

YOUTHBUILDERS, INC. Scroll of honor to Norman Corwin for *This is War*.

This list represents only war-effort awards. 29 other awards were made to CBS in 1942.

Helen O'Connell	102
Harriet Hilliard	45
Marian Hutton	45

**R**AUDIO editors, writers and critics on newspapers and periodicals throughout the United States and Canada took part in the sixth annual poll conducted by *RADIO DAILY*.

Tabulations were made on the basis of 10 points for each first choice, 9 points for each second choice and proportionately down the line. All figures represent points out of a possible 1,000.

Original signed questionnaires as returned by the radio editors and the worksheets used in the tabulation of the votes are carefully preserved by *RADIO DAILY*. It is regarded as the one authoritative pool of its kind conducted by a radio industry business paper and is presented as a service to the trade which finds it helpful to have a true cross-section of opinion from the nation's radio editors.

(Continued on Following Page)

# DATA ON PROGRAM WINNERS IN RADIO DAILY'S SIXTH ANNUAL POLL of RADIO CRITICS

## (Pepsodent (Bob Hope) Program

Sponsored by Pepsodent Co.; Tuesdays, 10-10:30 p.m., EWT, on NBC network. *Agency*: Lord & Thomas. *Cast*: Bob Hope, Jerry Colonna, Vera Vague, Frances Langford and guests. *Orchestra*: Skinnay Ennis.

Sponsored by Brown & Williamson Tobacco Co. *Agency*: Russel M. Seeds Co., on NBC Tuesdays from 10:30-11 p.m., EWT. *Cast*: Red Skelton, Harriet Hilliard, Wonderful Smith and Ozzie Nelson. *Orchestra*: Ozzie Nelson.

# THE PRODUCTION SIDE OF RADIO

*Back Stage During 1942*

RADIO'S writers, producers and directors, did not have to climb on any "bandwagon" when it became evident that the Government's program called for more and more use of broadcasting in every conceivable manner. On the contrary radio's backstage folk as well as those "out front" were already on the front line doing everything possible long before Pearl Harbor. Thus, unlike many other industries, radio was well in its stride when the Government needed it most, and proceeded to give its services to the Office of War Information, for instance, with no confusion, but with the maximum of efficiency. Foreign language producers and stations also, offered their services freely.

## Production At All-Time High

Despite the prodigious amount of work accomplished for and in cooperation with the Government agencies, radio's backstage continued to expand its activities as is revealed by peak billings for the networks and numerous independent outlets and regionals.

While a considerable number of productions never saw the light of day due to transcription difficulties with the American Federation of Musicians, the majority of these were merely switched from the proposed musical productions to dramatic.

As to the average program itself, the war effort wielded considerable influence, as is to be expected, and yet, there remained more than enough of the usual type and brand new productions to take the listeners mind off the war, when such was deemed expedient. Lack of commodities and rationing did much to cut remaining one-hour shows to a half-hour; however such casualties were quickly met by the producers and new accounts, plus switches to more desirable time filled the breach and maintained certain network continuity of entertainment.

## Television and FM

Television naturally bowed to the war effort and simmered down to Civilian Defense shows and films in most outlets. With the FCC issuing an order permit-

ting these stations to reduce the amount of time televised weekly, production men vitally needed elsewhere were freed; conservation of materials in this case was another important factor.

Frequency Modulation hesitated for a moment, then put its best foot forward and decided to hold the fort. It was held that FM has become of age and efforts were redoubled to provide a steady stream of programs. During the year licensees who might have held off, took to the air. That the war prevented it from blossoming out strong, is of course generally conceded. There is no indication of a letdown during the year, for this type of broadcasting. It will not become a stepchild according to those in back of it.

## International Aspects

Shortwave broadcasting was a lively baby during the year. Leasing of the outlets to the Government did not change production schedules too much. Rather a closer coordination and control for specific causes was the result and, the great responsibility of this powerful medium being properly directed was passed over to the Federal agencies. As in the past, 100 per cent cooperation between networks, other licensees and Government bureaus, is the byword.

## Shows For Overseas Forces

As an indication of what producers in and out of the armed services have done and are doing, and the excellent spirit of cooperation which prevails, men in the service throughout the world receive a constant supply of point-to-point live talent programs not to mention nearly 1,000,000 transcribed shows of top-notch entertainment, already sent to every part of the world.

Between shortwave schedules and the recorded programs, there has been little lack of radio entertainment for the armed forces no matter where they are stationed. This is made possible by the skill of some of our best producers, artists and engineers who have worked and continue to work unceasingly "backstage" so that the production side at least does a job the best it knows how.

*(For Complete Production Section Please Turn to Page 635)*

## War Department Bureau of Public Relations, Radio Branch

### WASHINGTON OFFICE

Pentagon Bldg., Washington, D. C.  
Phone, Republic 6700. Extensions 4901, 3887  
Chief ..... Lieut. Col. E. M. Kirby  
Executive Officer ..... Captain Jack Harris  
Head, Planning Section ..... Captain Frank E. Pellegrin  
Head, Placement Section ..... Major Harold B. Rorke  
Head, Broadcast Service Section ..... Jack E. Joy

### NEW YORK OFFICE

90 Church St., New York, N. Y.  
Phone, BArclay 7-4810, Extension 29.  
In Charge ..... Willis Cooper

### HOLLYWOOD OFFICE

403 Taft Bldg., Hollywood, Calif.  
Phone, HEmpstead 4804  
In Charge ..... Robert C. Coleson  
All initial correspondence should be directed to the Washington office address, rather than to individual personnel. Long distance telephone calls should be directed to the Executive Officer, unless previous contacts have been established. Inquiries and communications thus addressed will be routed more efficiently.

The New York office functions only in matters concerning "The Army Hour;" everything else should be referred to Washington.

## War Savings Staff Radio Section Treasury Department

# THE BUSINESS SIDE OF RADIO

By *Sylvia Weiss*  
*RADIO DAILY Staff*

RADIO has gone beyond just withstanding the rigors of the first year of a modern, global war. It has enhanced and solidified its position as a medium of communication vitally aiding the Allied effort. During 1942 radio also has proved its business resourcefulness, and an ability to recover quickly from restrictions and operating obstacles. Radio, the commercial side of radio, revealed great flexibility and adaptability to a new order of advertising practice which came into being, in step with change the world over.

After one month of war, there were trepidations about radio's remaining a private enterprise and retaining its commercial aspects. The trade's initiative in selling the American public on an all-out war effort automatically filled its licensing requirements to an overflow and warded off Government seizure. With that fear somewhat allayed, radio set about adjusting itself to a new commercial aspect under war conditions.

It became evident, early, that the e would be some advertising casualties. Radio sprung to the challenge, and more than ever before, started out to sell itself. The predicted evolution from a seller's market to a buyer's market was discernible. However, the withdrawal of advertisers whose facilities were turned over to complete war production, such as the automotive and radio manufacturing industries, was not as complete as had originally been feared.

What withdrawals there were were mitigated on several fronts. For every one which dropped out, radio found there were two others ready to move in, with the result that 1942 gained a healthy influx of new advertisers.

## Post-War Factor

There were fewer withdrawals than at first expected because enterprise adopted a long term point of view. Following the national trend, these advertisers have not lost sight of the post-war while bending every effort to execute the war at hand. These advertisers have maintained local and national advertising campaigns to keep their names before the public—a short memoried public.

A second group of institutional advertisers has indulged in selling its private prestige and the war effort at the same time. Here are firms, such as General Motors, which have no immediate product

to market, but which have been conditioning the public to associate the organization with home front and camp morale, and war production effort.

A third group of institutional advertisers bought on by the war consists of those who, often, have never used radio before, but who bought single radio shots to air a production award, or to stage an elaborate morale program such as Elgin Watch Co.

Easing early qualms about the possible loss of advertisers was the tendency of some of these clients to substitute spot advertising for network programming, rather than fold up entirely. Resorting to this change in distribution were organizations which had to use radio to do a direct selling job as an assistant to a greatly reduced staff of traveling salesmen.

## Discount Plans

The innovation this year by all the networks, of a special discount plan to encourage full use of network hook-ups brought in great returns both for the networks and stations. Encouraging to advertising as a whole was the favorable attitude on the part of the Treasury and the Bureau of Internal Revenue in making allowances for advertising on income tax returns.

By the foregoing evidences of ingenuity, radio has not only held its ground, it has been able to show an average increase in grosses. Among the networks, Mutual, perhaps, enjoyed the largest percentage of gain for the year. The Blue, for its first year of operation independent of NBC, reported coming out in the black, an encouraging tone for the whole trade. Both NBC and CBS were able to chalk up increased gross revenues for the year.

These experiences of 1942 have given radio confidence in change. The year has demonstrated that many former practices and institutions have outlived their term, and that new forms are coming in. There are indications that the evolution is young, but that initiative, alertness and drive will enable radio to maintain its self-supporting respect. Together with the knowledge that technological developments in the field are making headway fast, these progressive qualities of the industry bid a fair future for radio.

# LEG-WORK MAKES SALES

McGillvra men are on the job selling every place where spot radio can be sold. They're *there* when lists are being decided. That's why McGillvra stations continue to get the "breaks." And there's no mystery in this kind of successful representation—because leg-work makes sales! Write in confidence today on your selling problem.

There's no

ACCEPTANCE  
IS  
THE YANKEE  
NETWORK'S  
FOUNDATION

One of the 20 best radio advertisements  
of 1942, selected by H. M. Heberer, Pro-  
fessor of Radio Advertising, Kansas State  
College of Agriculture and Applied  
Science. The advertisement appeared in  
November and December trade journals.

# THE YANKEE

Member of the Mutual

21 BROOKLINE AVENUE, BOSTON, MASSACHUSETTS

# place like home; for Selling by **RADIO!**

The first requisite is to get your messages in the home—not now and then, but every day! Not as a casual visitor, but on stations that are welcomed as long established friends and neighbors.

Unless you are a native born New Englander, unless you know their characteristics, habits and qualities of loyalty you can't appreciate how important this is.

Yankee Network hometown stations are "friends" of years standing, known and preferred in the 21 key markets they have faithfully served.

The consistent success attained by scores of leading national advertisers is the most significant and convincing evidence that the sales-way to New England is through Yankee Network's "accepted" stations.

# F. C. C. REGULATIONS REGARDING BROADCASTING APPLICATIONS

---

*As of January 1, 1943*

---

**P**LACE of filing; number of copies. Each application for construction permit or station license, and all papers incorporated therein and made a part thereof, with respect to the number of copies and place of filing, shall be submitted as follows:

Three copies direct to Washington, D. C.

**Contents.** Each application shall be specific with regard to frequency or frequencies, power, hours of operation, equipment, location of the station, and other information required by the application forms. An application for broadcast facilities in the band 550 kilocycles to 1600 kilocycles shall be limited to one specific frequency. An application for radio station construction permit or license requesting alternate facilities will not be accepted.

**Full disclosures.** Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial and other qualifications, and as to all matters and things required to be disclosed by the application forms.

**Additional statements.** In addition the Commission may require an applicant to submit such documents and written statements of fact, under oath, as in its judgment may be necessary.

**Installation or removal of apparatus.** Applications for construction permit or modification thereof, involving removal of existing transmitting apparatus and/or installation of new transmitting apparatus, shall be filed at least sixty days prior to the contemplated removal and/or installation.

**Forfeiture of construction permits: extensions of time.**—(a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) Any application (FCC Form No. 701) for extension of time within which to construct a station shall be filed at least thirty days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than thirty days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

**License following construction permit.** In all cases where a construction permit is required by Section 319 of the Act for the construction of a station, the application for station license (or for station license or modification thereof, if for station other than broadcast) shall be filed by permittee prior to service or program tests.

**Where construction permit not required.** Each application for new license, except amateur, where a construction permit is not a prerequisite thereto, shall be filed at least sixty days prior to the contemplated operation of the station: *Provided, however,* That in emergency and for good cause shown, the Commission may waive the requirements of this rule.

**Modification of license.** An application for modification of license, except amateur, and except as otherwise provided by these rules, may be filed for change in frequency, change in operating power where no construction is necessary, change in hours of operation, and for change in name of licensee where no change in ownership or control is involved. In case of a broadcast station, an application for modification of license may be filed for change in location of main studio. In case of all stations other than broadcast, an application for modification of license may be filed for change in points of communication, change in nature of authorized service,

and to cover an outstanding construction permit where the station is already licensed. Except when filed to cover construction permit, each application for modification of license shall be filed at least sixty days prior to the contemplated modification of license; *Provided, however,* that in emergencies and for good cause shown, the requirements hereof may be waived in so far as time for filing is concerned.

*Renewal of license.* Unless otherwise directed by the Commission, each application for renewal of license shall be filed at least sixty days prior to the expiration date of the license sought to be renewed. No application for renewal of license of a standard broadcast station will be considered unless there is on file with the Commission, the balance sheet and income statement currently required by the rules of practice and procedure of the Commission, reference to which by date and file number shall be included in the application.

*Financial statements.* Each licensee of a standard broadcast station shall file with the Commission on or before March 1 of each year on Forms 705 and 706, or such other forms as may be prescribed by the Commission, a balance sheet showing the financial condition of a licensee as of December 31 of the preceding year and an income statement for the preceding calendar year. Each such form shall be subscribed and verified by: (1) the parties or party filing the statement; (2) in the case of a corporation, an officer of the corporation. (An attorney for either is allowed with sufficient reason.)

*Filing directed by Commission.* Whenever the Commission regards an application for a renewal of license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a certain date, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

*Temporary extension of station licenses.* Where there is pending before the Commission any application, investigation, or proceeding which, after hearing might lead to or make necessary the modification of, revocation of, or the refusal to renew an existing license, the Commiss-

sion may, in its discretion, grant a temporary extension of such license; *Provided, however,* That no such temporary extension shall be construed as a finding by the Commission that the operation of any radio station thereunder will serve public interest, convenience, and necessity beyond the express terms of such temporary extension of license; *And provided further,* That such temporary extension of license will in no wise affect or limit the action of the Commission with respect to any pending application or proceeding.

*Assignment or transfer of control.* (a) *General.* An application for consent to assignment of a construction permit or license, or for consent to transfer of control of a corporation holding a construction permit or license, shall be filed with the Commission at least sixty days prior to the contemplated effective date of assignment or transfer of control. If the assignment or transfer is voluntary, the appropriate application shall be fully executed by all parties and, if involuntary, by assignee or transferee only.

(b) *Broadcast.* With each such application, involving any standard broadcast station construction permit or license, there shall be submitted under oath or affirmation all information required to be disclosed by the application forms prescribed by the Commission, together with such other information under oath or affirmation as the Commission may require.

(c) *Other than broadcast.* In all classes of applications for consent to assignment of construction permit or license or for consent to transfer of control of a corporation holding a construction permit or license, other than those prescribed in paragraph (b), the Commission may require the furnishing of such information as in its discretion is deemed necessary.

*Special temporary authorizations.* (a) Special temporary authority may be granted for the operation of a station for a limited time, or in a manner and to an extent or for service other or beyond that authorized in an existing license upon proper application therefor; *Provided, however,* That no such request will be considered unless:

1. It is received by the Commission at least ten days previous to the date of proposed operation; *Provided, however,* That any such request received within less than

ten days may be accepted upon due showing of sufficient reasons for the delay in submitting such request.

2. Full particulars as to the purpose for which the request is made are stated.

(b) If the request is for operation of a standard broadcast station, the following additional requirements shall apply:

1. No such authority may be granted to a person other than the licensee of an existing standard broadcast station.

2. The request shall be limited to a definite or temporary period or periods for the transmission of programs or events which are not recurrent, and approval thereof will not be granted for a period in excess of thirty days.

3. The request shall show that it has been seasonably submitted to other stations whose operations may be affected (to be determined as indicated below), and the date on which such request was so submitted, which such stations shall submit direct to the Commission waiver of objection to the granting thereof or a statement of the nature of any objections that such stations may desire to interpose:

4. If the request is for operation upon a clear channel, showing required above shall be made with respect to the Class I station or stations on the channel.

5. If the request is made by time sharing station, the showing required above shall be made with respect to the station or stations with which time is shared.

6. In any case, the showing required above must be made with respect to any station on the same or adjacent channels when any such station is located within the interference range of the station making the request to be determined by the "Standards of Good Engineering Practice Concerning Standard Broadcast Stations."

7. Waiver of objections, or statement of objections, when furnished under this rule, shall be forwarded direct to the Commission by the responding station, and in the case of waiver shall show whether the waiver covers simultaneous operation or whether the station is giving up the time sought by the applicant. Where it appears that the proposed operation has been seasonably submitted to the station or stations referred to in sub-paragraphs (4), (5), and (6), above, and no reply has been received, it will be considered that such stations have waived any objections to the granting of the request.

**Special Service Authorizations.** Special Service Authority may be issued to the licensee of a radio station for a service other or beyond that authorized in its

existing license for a period not exceeding that of its existing license upon proper application therefor\*; and satisfactory showing in regard to the following, among others:

(a) That the requested operation may not be granted on a regular basis under the existing rules governing the operation of the class of stations to which the applicant belongs;

(b) That in the event the application is on behalf of a standard broadcast station that experimental operation is not involved as provided for by Part 3, Section 3.22, of the Rules and Regulations;

(c) That public interest, convenience, and necessity will be served by granting the authorization requested.

*Inconsistent or conflicting applications.* When an applicant has an application pending and undecided, no other inconsistent or conflicting application filed by the same applicant, his successor or assignee, or on behalf or for the benefit of said applicant, will be accepted for consideration.

*Multiple applications; broadcast service.* In the broadcast service, while there is one application for new or additional facilities pending for a standard, international, television, facsimile, high frequency or experimental broadcast station, the Commission will not consider another application for new or additional facilities for a station of the same class (as given above) to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest. Two such applications may not be filed simultaneously.

*Repetitious applications.* (a) *Broadcast services.* In the broadcast service, where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new standard, international, television, facsimile, high frequency, or developmental broadcast station, or for an extension or enlargement of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class (as given above) to serve in whole or in part the same area, by the same applicant or his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of twelve months from the effective date of the Commission's order.

Applications for authorizations to use frequencies assigned to the international broadcast service may be made on an informal basis; formal application must be made for other authorizations.
