THE MAGAZINE FOR ACTIVE RADIO MONITORS
BOARD OF DIRECTORS
ELECTION RESULTS

A total of 65 ballots were cast in the recent SPEEDX Board of Directors election. Here are the complete vote totals, as tallied by Board President Jack Sanderson, and verified by Vice-President Tom Kephart:

Per the SPEEDX Constitution, the first and second-place candidates receive four-year terms on the BOD, and the third-place finisher receives a two-year term. Therefore, Peggy Thompson and Carl Huffaker have been elected through December 1991, and Richard D'Angelo has been elected through December 1989.

Current BOD member Tom Kephart's term continues through December 1989. The unfinished term caused by the resignation of David Sharp will also run through December 1989, and will be filled by the current Board of Directors in the next month.

The first action for the new BOD, which will begin its term of office on January 1, 1988, is to elect a President. The person elected will then name his or her Vice-President for the new BOD term.

As soon as the new Board of Directors slate is finalized, their names and addresses will be printed in “Keynotes”, and they will welcome your comments and suggestions for SPEEDX’s next two years. Thanks to all who participated in the election, and congratulations to the one returning and two new BOD members!

USE OF WBI MATERIAL

Contributors please note: Material from World Broadcasting Information (WBI), compiled and published by the BBC, is copyrighted, and may not be reproduced without permission from the BBC.

SPEEDX has permission to reprint limited schedule information in “Station Skeds”, in return for a brief mention of the WBI in the column. We are not authorized to reprint other information, or print it in any other column, at this time. Please don’t send WBI information to us... we simply cannot use it due to legal restrictions. If this situation changes in the future, I will let you know here in “Keynotes”.

ANARCON 1988

You’ve got to get up pretty early to beat Ralph Bowden to the punch! (I believe that is known as a mixed metaphor, huh?) Ralph is the first person to register for ANARCON 1988, sponsored by ASWLC in Huntington Beach, California. If you’d like to be an “early bird”, too, write for info from: ANARCON, 16182 Ballad Lane, Huntington Beach, CA 92649. Be sure to tell them SPEEDX told you about it.

FINE PRINT DEPT.

“Africa” editor Al Quaglieri had “one of those weeks” and had too little time to complete the column this month. He will
combine loggings from this month and next into the December issue.

**WHERE SPEEDXers LIVE**

An examination of the North American membership listing provides us with the following tidbits:

- Nearly 25% of North American members live in either California or New York;
- About 50% live in one of the following seven states: California, New York, Illinois, Florida, Pennsylvania, Texas or Massachusetts;
- Over 75% live in the previous seven states plus: Ohio, Virginia, Maryland, New Jersey, Michigan, Wisconsin, Arizona, Colorado, Georgia, Oregon or Washington, a total of 18 states.

Here is a complete list of member totals by state and province, as of the October issue of SPEEDX.

**COMPUTERS and DXing REVISITED**

In “DX Montage” the past two months, a discussion of the use and usefulness of computers in our hobby has been going on. I’ve decided to keep that discussion in

“Keynotes”, since I’m responsible for starting this potential hornet’s nest, hi!

Michael Schulsinger of Springfield, Ohio, writes this month:

“...I think you are way off in your estimate of when computers will be effective receiver accessories. I am presently trying to teach my Commodore Amiga 500 to talk with my Kenwood R-5000, and expect to break through this week.

“For those who are less adventuresome, Universal Shortwave in Columbus, Ohio (telephone 614-866-4267 for info or 800-451-5939 to order) is stocking ‘SWL’ and IBM PC/XT/AT control program for the R-5000.

“I agree that many computers still produce too much RFI, be there are things you can do about that. I am keeping my Amiga about ten feet from the R-5000. If I still get too much noise, I’ll add an RFI trap between the computer and the AC power outlet....”

Thanks, Michael, for your comments. Please send a copy of the results you have to me, and I will share them with “Keynotes” readers. I must point out that I am not anti-computer, on the contrary, this column and a number of other items in SPEEDX are prepared on my Apple Macintosh Plus. I also recently purchased a modem, and am becoming active in the various SWL-related computer bulletin boards, such as Tom Sable’s NACC board. However, although the Macintosh conforms to FCC Type ‘B’ rules for radio frequency interference (the toughest current standard), my radio picks up noise from the computer all over my office. Yes, I could move the radio away from the computer a distance of 15-20 feet, but (in my opinion), that defeats the “ease of use” which would have interested me in using the computer while DXing in the first place!

That’s it for November. I hope you will receive this issue in good health, and with the bands static-free and full of good sounds and good DX. See you in 30! 

/EM
Hi. (Laughter). I've been asked to put together this column (more laughter, hi!) as your new DX Montage editor. Tom Kephart has been doing both DXM and Keynotes for the past two months, as well as lining up yet another print shop for the magazine, and it will be an excellent experience for him to, oh, maybe sit back and listen to the radio once in a while, something like that...

I have inherited a lot of good material from Tom and David, much of which will appear in the rest of these pages. There is some deserving information which hasn't been used—mainly because, with the personnel transitions and some slimmed-down page allotments, we couldn't fit it in while it was still current. I didn't see anything which was boring or dull. Thanks to all of you.

And, to everybody who is reading this, DX Montage is your column, just as SPEEDX is your magazine. I don't have any pre-fab notions about what DXM should be; I just know that I'd rather edit this column than write it. Beyond that, I'll listen to any ideas. Let's kick in with our readers' contributions now.

BOOK REVIEW

CLANDESTINE RADIO BROADCASTING: A STUDY OF REVOLUTIONARY AND COUNTERREVOLUTIONARY ELECTRONIC COMMUNICATION, by Lawrence Soley and John Nichols (Praeger, $47.95).

Reviewed by John E. Demmitt, Pennsylvania.

One of the most difficult subjects to write about is clandestine radio broadcasting, because these stations are illegal by their very nature, and the penalty for the operators, if caught, is often death. To avoid detection, the stations will often put out disinformation to confuse the authorities. Many of them enjoy the protection of the intelligence agencies of various governments; thus, finding anything out about them is often a fruitless project.

Finally, a comprehensive book has been published, providing interesting data taken from the files of the CIA, FBI, FCC, IFRB, etc. Wire services, the FBIS, and hobby publications are freely used to fill in the gaps and provide a complete and smooth flowing adventure. Notes and references are logged at the back of the book to provide readers with additional material for research. There has never been a more complete guide to clandestine radio broadcasting.

These 398 pages are packed with information concerning pirates, military and political covert transmissions, and government involvement—including some well-known individuals and private companies which often assist intelligence groups by providing a "cover." Names such as Ellis Rubin, the attorney who represented Alpha 66 and, later, the Cuban contingent in the Watergate affair; E. Howard Hunt, former CIA propagandist and Watergate conspirator; Jorge Mas, former Radio Swan broadcaster and subsequently head of the Presidential advisory board for Radio Marti; John Foster Dulles; and many others are keys to unlocking the many mysteries involved with clandestine radio broadcasting.

This book is a must for anybody interested in clandestine, pirate, military, political, or intelligence activity.

(Praeger Publishers, Box 5007, Westport, CT 06881)

John, thanks for an excellent review! I'd seen this book briefly mentioned in Foreign Affairs, and I'm glad to have a more in-depth look at it.

A reasonably competent bookstore should be able to order this title; Praeger is an established, though relatively low-profile, publisher. SPEEDX'ers who can't afford the hefty list price can try to handle their local libraries into obtaining a copy.

PENSACOLA POSNERIZED

Vladimir Posner, Radio Moscow's "political observer" who has been spending a lot of time in the United States lately, recently appeared at a journalists' conference in Pensacola, Florida. Don McCants, Alabama, sent along a column by syndicated political observer James J. Kilpatrick, describing the event.

He (Posner) began by acknowledging "profound differences" in the two nations. Then his intellectual gears shifted into automatic transmission.

There is no such thing as a "free press" in either nation, he remarked. All media are controlled, his and ours. In the United States, editors exercise control over
the stories that will be published and the stories that will be killed. In the Soviet Union it is a little different, but in the end it is all the same. Controls are controls.

Kilpatrick, a conservative who has little patience with anybody of Posner's political persuasion, cheerfully reported that the predominantly Southern audience was, overall, skeptical of Vladimir's adventures in logic. But he did agree with one of Posner's points: American news services tend to assign reporters to the USSR who have little or no knowledge of the Russian language, and who know in advance that they will be there for a predetermined (and usually brief) time. This means that American reporters generally are unable to dig around, take advantage of casual contacts with non-officials, or get an overall feeling for the inner dynamics of Soviet society.

In case you were wondering what Vladimir Posner's birthday is, it's April 1.

NEW NAB AWARDS

The National Association of Broadcasters singled out ten stations for excellence in community service. This was the first year for the "Crystal Radio Awards," which were given out at the NAB's convention in Anaheim this summer. Honored were: KGFW, Kerney, NE; KHAS, Hastings, NE; KJMO, Jefferson City, MO; KMOX-AM, St. Louis, MO; KNOM, Nome, AK; KPAL, N. Little Rock, AR; WMFD, Frederick, MD; WMAL, Washington, DC; WQBA-AM/FM, Miami, FL; and WVMT, Colchester, VT.

Many of these stations were honored less for their programming than for their support of local charities and/or civic causes. WMFD, for instance, ran an "Ugly Dog Contest" which (somehow) benefitted victims of Multiple Sclerosis. However, KNOM was cited for its dissemination of health and medical information to the Native community (last month's DDX featured a nice story on this unique station); and WQBA (say it fast) served the fast-growing Cuban immigrant community in the Miami area. KPAL has to be some kind of a first: It's an all-children's-programming station! Its unprecedented shows are beginning to pick up around the country. (Asbury Park, NJ, Press)

MORE PROBLEMS AT RADIO MARTI

Hilda Inclan, a former Miami bureau chief for Radio Marti, claimed in an interview in September that she had been "forced to instruct my reporters to do intelligence gathering rather than being simply reporters." VOA spokesman Michael McGuire called the charges "completely false," noting that reporting for Radio Marti is dependent upon research into conditions within Cuba. Ms. Inclan—who received a commendation from Radio Marti in January—also complained that interviews with Cuban refugees which her department had conducted were not aired on the station. The service's director, Ernesto Betancourt, replied that only Tony Rivera, head of the research operations department in Miami, was authorized to interview new refugees; and that the Immigration and Naturalization Service, as well as Ms. Inclan, was aware of that policy. Mr. Betancourt added that some refugees who arrive in south Florida are infiltrators planted by the Cuban government. (Milwaukee Journal, contributor unknown. If you want to insure credit for your contributions to this column, it's probably a good idea to write your name on each clipping. There is no perfect filing system...not here, anyway.)

IT'S WRTH TIME AGAIN...

...and here is a special deal for SPEEDX'ers. Prepublication orders are being taken at $18.00 (book rate) or $19.00 (first class mail), a substantial savings from the $19.95 list price that the 1988 WRTH is expected to carry. Orders should go to: Century Print Shop (Attn: Don Erickson), 6059 Essex St., Riverside, CA 92504-1599. This offer expires on 20 November; after that date, the prices will go up by $2.00. Offer valid only in the USA; Californians please add $1.08 sales tax. Make checks or money orders payable to Century Print Shop. The press release asks that you state your club affiliation or source of information for this offer along with your order. So, please tell them that you heard about it via SPEEDX; it helps the club, and it helps the printers when they know which of their marketing efforts works.

Century also has back issues of the VRTH available, 1981 thru 1987. The prices are $20.00 each, 2/$35.00, 3/$49.00, 4/$62.00, mix-or-match years. (Via SPEEDX HQ)

CANADIAN CORNER

Fans of RCI's super "North Country" morning programme may have been reluctant to write fan letters because they didn't know how to spell the name of the show's likeable host, Wojtek Gedaiza. Well, there it is. If you're an RCI fan—and who isn't?—why not write today?
WESTWOOD WHO?

In case you didn't notice, Westwood One's purchase of the NBC radio networks in July made it the second largest radio network (behind ABC/Capital Cities) in the United States. Westwood One began in 1975 as a syndication service; "Dr. Demento," the showcase of unusual and ridiculous rock records, still remains from those days. It purchased the venerable Mutual Broadcasting System (home of talk-show stars Larry King and Dr. Toni Grant) in 1985. (Los Angeles Times; James Kline, CA)

Since this column is informative and non-controversial in nature, your editor wishes to remind all SPEEDX'ers to refrain from thinking ironic thoughts about how such a significant network could arise from the "Dr. Demento" show. Instead, why not concentrate on finding interesting things to contribute to DX Montage?

MEANWHILE...

Another well-established radio network, RKO General, may be in its death throes. The company was denied renewal of its licenses by an administrative law judge who cited severe incidences of fraudulent billing to advertisers in its recent past. The FCC will review Judge Kuhlmann's decision in an appeal process which could take up to two years. Meanwhile, in an unprecedented decision, the FCC has allowed RKO to sell its stations; normal procedure has been for revoked or disputed licenses to be "frozen" under FCC jurisdiction. The properties involved in this case include two of New York's most popular radio stations, and, in total, may be worth as much as a billion dollars on the market. (New York Times)

THE FCC vs THE SENATE

Senator Ernest Hollings (D-SC) has introduced legislation that would require the FCC to review at least 10% of all broadcast licenses as they come up for renewal. Senator Hollings has complained that the industry is being taken over by "MBA whiz kids" who are cutting public and community services in favor of more immediately profitable programming; and he wants the FCC to evaluate whether stations are providing "meritorious" service as they come up for renewal.

FCC Chairman Dennis Patrick countered by saying that the "meritorious" service standard was too vague to enforce fairly. He also worried that too much government oversight might actually discourage broadcasters from airing controversial programming, and could set the stage for all sorts of potential political abuse. (Los Angeles Times; James Kline)

Whatever one thinks of the FCC's current moves towards deregulation, it seems that the policies have raised more debate about American broadcasting than we've seen in a long time. It's long overdue.

An interesting book has come out: AMERICAN BROADCASTING AND THE FIRST AMENDMENT, by Lucas A. Powe, Jr. (California, 1987). It's a historical overview of electronic media and the FCC, with special attention paid to certain court decisions which have defined radio and television as being legally subject to different principles than those which guide "traditional" communications. I'm kinda hoping that a history buff or First Amendment maven will step forward and do a review for this column....

A BOOK FOR YOUNG PEOPLE

THE VOICE OF AMERICA, by Memi Ingrassia Fitzgerald (Dodd, Mead, $12.95).

From the Dayton, Ohio, Daily News and Journal-Herald: "Fitzgerald, who has produced children's television shows and written magazine pieces for young readers, has come up with a slim, simply written and photographically illustrated book for ages 10 and up. Equally important, she has--without seeming to preach or teach--explained how the VOA came into being and how it operates now. You don't need to be a 10-year old to find it interesting." (Michael Schulsinger, Ohio)

Might be a nice holiday present for the young ones, eh? But don't blame me if they come back next year, all over your case for an ICOM!

A BOOK FOR UTES

RADIO-TYPE MONITORING: THE COMPLETE GUIDE, by Dallas Williams (Tiare Publications, $9.95 + $1.00 shipping from the publisher, Box 493, Lake Geneva, WI 53147).

The press release describes the book as one which "offers a straightforward, no-frills approach to getting the neophyte RTTY monitor off on the right foot. It'll also provide answers to questions that many experienced monitors have." The author is a Ham operator, with degrees in journalism and electronics; his RTTY equipment is home-built.

Your editor--a simple man, a humble man--confesses to complete ignorance of RTTY; but it seems that this is the first attempt on the market to fill the need for a one-volume RTTY "primer." SPEEDX's Ute contingent is cordially requested to send me comments; does Mr. Williams get the job done?
ISRAEL ON STRIKE
A strike at the Israel Broadcasting Authority has caused broadcasts from Kol Israel to be halted. As I write this, KI has been off the air for about two weeks. (Israeli Consulate, New York City)

Bill Westenhaver suggests that, if you want to get on Kol Israel's mailing list, send them four address labels; you'll receive a year's worth of skeds and a reminder with the last mailing. Bill tells me that it's worked for him for a couple of years.

READER'S QUESTION
Houston SPEEDX'er Hub Ratliff sent in a photocopy of the owner's manual for a Blaupunkt radio which came with his new car. The radio features something called ARI, which is described as a "unique technology...to reduce rush hour delays and, in general, improve traffic control." ARI is apparently unavailable in Houston; and the dealer couldn't explain exactly what it is.

If anybody knows about ARI, please write in and tell us. Hub would like to know, and I'm curious as well. It would have been nice if the Blaupunkt people had been less cryptic in their description; perhaps they figured that the general public would rather be mystified than be informed....

NRD-525: OLD AND IMPROVED?
Neal Kolb writes in from Illinois:
There was a news item in FRENDEX...that was of great interest to me as an owner of an NRD-525. It stated that JRC has come out with a model NRD-525U that allows a choice of faster tuning speeds. By depressing the "Run" switch, the pushbutton tuning increases to steps of 10 kHz (vs. 1 kHz otherwise), while the tuning dial changes to 20 kHz per revolution (vs. 2 kHz). I tried this with the '525 that I have, and found to my amazement that my receiver also has that capability, although my manual didn't mention it.

Thanks for writing, Neal. It's unlikely that you got the only unidentified "new model" around, so you may well have helped some of our readers discover something they didn't know they had. It's rare that a company delivers more than it advertises, eh!

THE SPEEDX CONTEST!
You know those portables which have been popping up here & there for $200 or less? (We'll have a review next month of a prime example, the EEB Ambassador 2020). All of a sudden, we seem to have a lot of digital receivers around which cost less than a VCR and which should be a superb addition to any household.

As far as I can tell, however, these portables are being marketed primarily to a community which is already committed to world radio. Meanwhile, much of the world still thinks of the shortwave bands as Hams chattering away in Morse Code and coyotes being eaten by deranged bluejays. How would you change that? How would you market the new generation of affordable portable receivers?

Let's write some ads!
If you have artistic inclinations, send in a prototype for a page which would look good in People, Cosmo, or Esquire. If drawing isn't for you, write a script for a radio or television spot. Be serious or comical, original or parodic; use an established name or--better yet--think up a catchy name which would be appropriate and attractive (i.e., the "Globe-Grabber," to use a particularly unfortunate example). Do what you want; multiple entries are welcome.

As you can probably tell, I'm not big on cut-and-dried rules; but we do have to have a deadline, so let's make that 12 January (5 January via David Jones at Central Control; yes, David forwards mail here, just as he does to any other column; gentle reader, you are fast running out of excuses not to send material to DXM). This should give you plenty of time to let your imaginations run amok.

For our Grand Prize, we have a World Calendar, full of global religious and national holidays and with the birthdays of many important world figures. Runners-up will receive a road map of New Jersey, the state of which Governor Kean has often said, "New Jersey and you...perfect together!" Finally, for consolation prizes, I've gathered 8 or 9 NDM, 92.7 FM, Toms River, NJ, bumper stickers, none of which have ever been used. The biggest prize of all, though, is that I think you can have fun with this one...and perhaps help the promotion of world radio listening as well.

MISS LIMA BEAN
Romy Gack has been crowned Miss Lima Bean at the West Cape May, NJ, Lima Bean Festival held this past October. Her predecessor, Bobb Cherrelle, described the position's responsibilities as being "a PR person for lima beans. You have to try to convert people who have a bad experience as children and hid them under a plate or something."

It's nice to see our young people standing up for the honor of a nutritious but much-maligned vegetable. I'm sure that Romy will do a fine job in 1988.

73's and write soon! —Addie
November 1987...It's good to be back after my month's "sick leave."

Thanks to all who wrote in to express their concern. I'm feeling better, but...(those who have had "mono" will understand)...Thanks to SPEEDXer Bill Romberg of WI for sending an article on Radio New York International. Those who would like a copy of this article from the Village Voice should send me an SASE. (WS)

AUSTRIA...(William E. Westenhaver, Que)"REPORT FROM AUSTRIA is heard in the North American Service broadcasts daily at 0130 and 0430 UTC, and Mon through Sat at 1230 UTC. In addition to NEWS, PRESS REVIEW and general current affairs items, the following special topics are heard on the following days (days are UTC days for the North American broadcasts): Mon PROFILE OF AUSTRIA and POSTBOX 700 Tue SPORTS REVIEW Wed AUSTRIA AND THE UN Thu THE AUSTRIAN ECONOMY Fri, Fri CORNER SAT POLITICAL COMMENTARY and FOCUS Sun THE COURIER SCENE. AUSTRIAN SHORTWAVE PANORAMA is heard on UTC Sun at 0200 and 1230. AUSTRIAN COFFEETABLE—a program of mainly music, since there isn't too much time for music in the ordinary half-hour programs—is heard UTC Sun at 0305 and 1205. Current frequencies in use are 9550(0000-0500) and 15320(1200-1300)...THE TOURIST SCENE contains at least one Viennese recipe. These recipes, particularly those for those fabulous Viennese cakes and pastries, are particularly mouth-watering—they're almost fattening just to hear! What's more nice is that, as a rule, they make copies of the recipes available on request, so that you can try them even if you didn't have your tape recorder going, or if you're not a whiz at shorthand." Thanks, Bill!

Ecuador...SALUDOS AMIGOS features letters from HCJB listeners and music. Host Ken MacHarg is one of those special persons who make shortwave the friendly medium that it is. You will enjoy this weekly half-hour if you tune in Sun 0000 & 1900 UTC and Wed(UTC day) at 0200 and 0630 UTC. (WS) Thanks to Ralph S. Bowden, CA for HCJB info.

Finland...Radio Finland has an interesting service for listeners in North America. You can now call toll-free 1-800-221-9539 and you will hear the current RF schedule to North America. You also are given up to 60 seconds to make comments to the station. I tried the number and was quite interested in the concept. Phone in and let them know how you feel about the station and what you think of this new service. (WS)

Netherlands...MEDIA NETWORK over Radio Netherlands on Thursdays has some interesting programs for the next two months. Nov. 12 looks at electronic marketing in Mainland China. On Nov. 26, there is a look at and listen to) radio stations in Thailand. On Dec. 3, the country of Indonesia is featured. Dec. 17 has a "Christmas Preview." On Christmas Eve, you can hear "The Party." Finally, on New Year's Eve, you can hear "Burst of the Worst," a shortwave bloopers show. (RN) Thanks also to Ralph Bowden, Station Skeds Editor for the RN info!

Switzerland...Swiss Radio International has English programming daily. DATELINE is heard Mon-Sat, with the SWISS SHORTWAVE MERRY-GO-ROUND also heard on Sat. Sun features THE GRAPESWINE(1st and 3rd) and SCHEDULES(2nd and 4th). See the October Station Skeds column for the SRI times and frequencies 0115-0530 UTC. (Carol Alain Lead, CA)

UK...BBC World Service has a new drama serial! CITIZENS can be heard Tue and Thu 1730 & 1715 UTC, Wed and Fri 0230 UTC. 2 episodes per week.

USER...SPEEDXer Fred Treasher of PA sends in the latest English schedule for Radio Moscow to North America. Next month we will feature some of these programs. Thanks, Fred. See you in December—and good listening!

Woodpecker Exposed: There it was for all to see on the front page of the New York Times of September 9, 1987, the dreaded Soviet radar installation at Krasnoyarsk. If you have always wondered what was that awful noise on the shortwave bands, now you can see, thanks to so-called glasnost', both the inside and the outside of the Russian woodpecker. The article states that in inspecting the 30 story receiver and 11 story transmitter members of a visiting U.S. Congressional delegation were unsure whether the site violated any treaties, but one staff member concluded that the radar’s frequency was under 200 MHz, which would be unsuitable for space tracking, but “would be ideal for early warning.” I guess this congressional staff member never owned a shortwave radio, which is also a great early warning device. There is no indication that the Soviet intend to turn off this radar site. You may send your comments about how this radar installation violates your radio listening rights to Representatives Thomas J. Downey, Bob Carr, and James Moody, who were part of the visiting delegation.

Computer Users: The North America and Caribbean Column BBS may be reached by dialing (717) 961-6141 from 10 pm to 8 am daily. Compsslw published its first newsletter. The idea behind Compsslw is to get together SWLs who use computers and exchange ideas, programs, data, and publications on shortwave radio on or by using a computer. Besides the newsletter Compsslw offers IBM PC program disks with useful calculation, logkeeping, and reference programs and text files; a North American Tropical Band Survey done on the computer; a shortwave radio BBS (718)-761-5727; and radio propagation research. Radio Marti, the anti-Cuban government station operated by the Voice of America, has been accused of being a spy front. A former employee has charged that Radio Marti is using its staff to gather intelligence, rather than convey information. The former employee, Hilda Inclain, says she resigned as the station's Miami Bureau chief because she was forced to instruct reporters to do intelligence gathering. The Voice of America has denied the allegation. (New York Times)

Computer Users: The North America and Caribbean Column BBS may be reached by dialing x(717) 961-6141 from 10 pm to 8 am daily.

Compswl published its second issue. The idea behind Compswl is to get together SWLs who use computers and exchange ideas, programs, data, and publications on shortwave radio on or by using a computer. Besides the newsletter Compswl offers IBM PC program disks with useful calculation, logkeeping, and reference programs and text files; a North American Tropical Band Survey done on the computer; a shortwave radio BBS x(718)-761-5727; and radio propagation research. For further information contact David Snyder, 127 Joseph Avenue, Staten Island, NY 10314.

It's been a lovely autumn month here in the Poconos. Indian summer has just about finished and the leaves are beginning to fall rapidly, the sure sign of the oncoming winter DX season. I hope that you have all your antennas ready for the winter blasts. I conclude with the usual reminder to send loggings to me directly to the address on the masthead or via the NACC BBS by the twelfth of the month or our CDE:

David Jones
2120 -C Mockingbird Lane
Box 8
Springfield TN 37172
by the sixth of the month.

🚨 Please cut those 🚨----- loggings--------.

Bye for now,

 رائع
It was a surprise when Radio Buenas Nuevas appeared on 4800 kHz. Perhaps there had been advance publicity, but we in the DX fraternity seem to have missed it. Possibly because Onda Azul had recently appeared on the frequency, several DXers caught the early broadcasts, but generally reception was rather poor. To provide what I hope is an authoritative report, I'll combine the reports of Bryant, Same, and Allen that appeared in "Fine Tuning # 444" with Jack Jones and my own reports. I hope all will forgive me for not quoting directly, but as is often the case, words from one log fill in the blanks on another.

Guatemala
4800 Radio Buenas Nuevas, TUMT Indian-language and Spanish religious programs. During late September, schedule has been 11:30 to 12:30 and 00:30 to around 03:00. Location given as San Sebastian, Huehuetenango, Guatemala. Mail address: 13020 San Sebastian, H., Guatemala.

So much for the station list, and now some speculation. The name, of course, refers to Christ’s Message, so its purpose is evangelistic. A single phrase, "truth in political matters", referring to the station’s policy caught my attention during a recent broadcast. It’s unfortunate, but political factions in Guatemala have long used religious doctrine as a basis of division. The appearance of this station, like the history of La Voz de Atitlán, can only be a reflection of that conflict.

The wisdom of getting the station on the air with a minimum of advance publicity becomes apparent from the problems that Radio for Peace and Radio Lira are having in neighboring Costa Rica. Both stations, through advance publicity, represented themselves as too big an organization and too international for local control. Almost every Latin-American official, even though he gives permission, will place obstacles in the way of any project, foreign or of the political opposition. Yet locally, and this is a saving grace, everyone automatically pitches in to help a man with his project, and especially if he’s foreign.

Now the logs. Unless indicated otherwise, the language is Spanish, and for Brasil Portuguese. The program details are, as usual, heavily edited and descriptive terms sometimes substituted.

I've spent a lot of space on this de/del thing, first to bring myself into line, but also to call attention to that both forms are used and it's best to check rather carefully when you read a report to the station. No one likes to be called by another name.

Here, I'm too close to Guatemala to hear anything except Tezuitulan
the name change for the end of the meter around 0100. ch.)
4800 ---- R Bonenaza details at the front of the column.
4825 23:55 R Mx local anamte, full ID at 00:00 with flute melody, into nice
marimbas then a local Inca Mx style (434 9/26 Van Horn-FL) (That was
a clear "Onda Azul" effect)
4910 03:01 R Nahualá morning devotional (444 8/31 Rocker-MB) (Robinson-TN)

NICARAGUA

6016 11:29 L V de Nicaragua ranchera style Mx, fast ID (343 9/16 Jones-MS)
6100 03:00 L V de Nicaragua ranchera style Mx, pop Mx, ID (322 8/11 Wright-MB)
(When the Sandanistas took over Nicaragua Radio, it became "Radio Sandina."
They maintained the name L V de Nicaragua for external broadcast on
5920, 5950, then 6015 kHz. The 6100 kHz Xmtr, an early AM
was used for internal Pxs and ID'd
outside influences when writing to local stations. ch.)

PARAGUAY

9735 10:00 R Mac de Paraguay speech by Pres. Strossner (555 9/18 Robinson-TN)
(Rocker-MB) (Wright-MB)

PERU

3330 05:02 ** Onca de Huallaga OA Mx, ID & NA at e/off (343 9/28 Bodenhagen-FRG)
(Quagliieri-NY) (And this is another river. ch.)
3340 10:45 R Altura OA Mx, "Radio Altura" ID (222 9/26 Van Horn-FL)
4495 10:40 R Contuazá (presumed) sudden peak at 10:20, fairly sure of ID, but
poor because of echo box effect (222 9/24 Jones-MS)
4790 09:10 R Atlántida saxophone solos, ID "Rrrradio Atlántida!" (545 9/27
Robinson-TN) (Bodenhagen-FRG) (Havrilko-UK)
4775 05:03 ** R Tarma romantic Mx, ID, NA, ID final follows NA (133 10/5 ch-MX)
4800 09:19 Ona Azul rooster crow, OA Mx, no copy on ID's until 09:38 when I
caught a clear "Ona Azul" (322 10/9 ch-MX)
4910 09:48 R San Martin typical early AM Mx, ID (353 9/21 Jones-MS)
4925 23:17 L V de la Selva Px of incredibly primitive huaynoy (I love that tape.
They often use it as an IS before e/on. ch.) full ID at 23:59 (222
9/14 Quagliieri-NY) (Robinson-TN) (Jones-MS)
4940 10:00 R Andahuaylas ID with call letters & QTH, LA pop (434 9/26 Van EPH)
4945 11:55 R Huancavelica long string, at least 15, all jingles, fast ID
(351 9/30 Jones-MS)
4991 10:20 R Tawantinsuyo Tx by man with Quechua accent ID included "corazon
pueblo", typical OA Mx (433 9/30 Jones-MS) (I've copied the ID
"R P, primera en el corazon del pueblo". "Pueblo is one of those
words that can refer to anything from a small group to the entire
population, so the ID seems correct. ch.)
4936 09:26 R Tropical Mx, chimes ID, Px "Amanecer del (llano?) (342 9/9 Jones-MS)
(The Px name is correct. Llano here refers to the (1/2) part of the
valley. ch.)
PERU (cont)

4950 10:25  "R Madre de Dios" TG, muy Buenas Días, ID, and into early AM Px (333 9/29 ch-MX)
4970 01:55  "R Imagén" Mx, ID "...de la República del Perú, transmite Radio Imagén..." AK, SH, & FM freqs (222 9/15 Quagliieri-NY)
4990 09:42  "R Ancash" ID & freqs, OA Mx & vocals (353 9/15 Jones-MS)(Robinson-TN)
4996 10:29  "R Andina" lots of yipping vocals, ID & freq (444 9/30 Jones-MS)
(341 9/19 ch-MX)
5015 05:19* "R Movistar" listing of stations that carried a game, final ID, NA (341 9/19 ch-MX)
5030 *01:16  "R Los Andes" "Buenas días, Perú", after NA & ID (443 9/15 Jones-MS)
6011 11:00  "R América" ID, Tx, "El Condor Pasa" at 11:03, another ID (343 9/11 Jones-MS)
6115 09:10  "R Unión" OA ballads, mixing with L V del Llano (323 9/27 Van Horn-FL)
6571 03:30  "R Tucumán" short anns, LA Mx, fading in and out (242 9/28 Bodenhagen-FRG)
6727 02:46  "R Satélite" a mix of Mx, mainly OA, a few ID's and many TC's, heavy static made copy difficult (352 9/1 Jones-MS)

VENUEZUELA

3225 10:30  "R Occidente" ID, girls choir, sermon (545 9/29 Robinson-TN)
3275 02:16  "R Maraca" romantic Mx, "Música en Radio Mara" at 02:30 (341 9/19 ch-MX)
4780 03:25  "R V de Carabobo" LA pop, ID at 03:10, ads (Shaffer-PA)(Robinson-TN)
4830 03:10  "R Calibura" eta promo, TO, 2DL piano Mx (434 9/18 Van Horn-FL)
4840 *08:16  "R Valera" NA, "Reta en Radio Valera...", Px "Buenas Días, Venezuela" (353 9/17 Quagliieri-NY) (Worob-TX)
4950 10:00  "R Capital" "Radio Capital ID, SS & SE pop" (444 9/17 Robinson-TN)
(444 9/17 Robinson-TN)
(Havrilko-UK) (Dillon-MD)
4980 23:14  "R Caracas" Fx of bouncy Mx interrupted several times by bulletins about a dead body found in the 5th Ave, including live reports from the scene (444 9/20 Westenhaver-PQ) (Wright-MB) (Havrilko-UK) (I'll have to guess on this one. I think, but only think, Torrbs is a river. ch)
9660 03:45  "R Rumbero" promo for song festival in Caracas, Moti-Rumbor with doorbells (444 9/16 Westenhaver-PQ)
11860 12:00  "R Voc de Venezuela" ID, music & commentaries on Venezuela (555 9/20 Robinson-TN) (Westenhaver-PQ)

When we were down in Alvarado, Veracruz for the departure of the Maripalante Santa Maria, a replica of the Columbus flagship, I met the reporters from XBU and XBW. Manuel had the early morning program on XBU and Araceli appears on Televisa Radio newscast. Both are young, and were very interested in those that their voices reach in the distance. Too often we Ikere, myself included, are engineers oriented and tailor our reports for the technical staff. It's logical as both we and they are interested in propagation and it's easy to forget those whose voices we listen to. There was a lot of media there, photographers, reporters from the papers and magazines, TV, but word got around that it was being covered by an "American DX Publication", and radio came into it's own. It was an incident, and perhaps an isolated one, but it set me wondering. Isn't our best contact with any small station the studio announcers? They're interested in us, so give it a try. Perhaps we can break the barrier on some of the non-verifiers.

It was late when I got this far, 05:01 10/12 UTC, I ran across the dial, some regulars, Reloj, Cuba, but 60 meters quiet, almost dead except 4390 kHz, a Px of romantic music almost non-stop. A few announcements in a quiet voice "somos la estación internacional" (estación, that's an infrequently used term), "música romantica por el fin de semana", but no ID. I'll wait. It's pleasant. I remember that song, a bar in Barranquilla, a cafe in Bogotá, or a party in Cali, I remember, and it's pleasant. It was another era, and I'm glad it still lives. I'll have this tape. It's Loja. Even the sexy-voiced YL couldn't distort the call letters beyond recognition. And now it's 8/off, a long, long complete ID following "Buenas Noches, Amorota", a short NA, another ID, and off at 06:12. It was all music of Augustine Lara, and the trio and arrangements as Mexican as be. What a giant, an era that spread across a continent and remains synonymous with romance. Tomorrow, Mexico celebrates "El Dia de la Raza" and boasts it's achievements. Tonight, a station in the South of Ecuador told of the greatest. That's radio.
This will be the last month that the U.S.S.R. (European) reports will appear in this column. Starting with the December bulletin there will be a new U.S.S.R. column edited by Jason Berri. Send the U.S.S.R. loggings to Jason at 21240 S. Western Ave., #18, Torrance, CA 90501 by the 12th or you can all your loggings to the Central Distribution Editor David Jones at 2120-C Mockingbird Lane, Box 8, Springfield, TN 37172 to be received by the 5th. I will pass on the U.S.S.R. loggings I receive here. All comments pro or con as to this new arrangement will be appreciated.

Loggings sent to SPEEDX shortwave columns should follow the format shown on this page. If you like, make photocopies of this page for use in submitting loggings. Older versions of this sheet are also acceptable, as are computer-generated logging strips. The important thing is that all logging strips follow this format to make the job of editing the column easier and quicker, with fewer errors.

THANK YOU VERY MUCH. The SPEEDX Editorial Staff

I hope you entered the European DX Contest and sent a copy of your reports to me as well. Next month I'm allowed to use as many pages as it takes to include these reports. Let's see if we can double the size of this column! Remember to send the U.S.S.R. loggings to Jason Berri. 17/6
Before I begin with yet another batch of excellent loggings from our fearless band of A/O contributors, a SPECIAL ANNOUNCEMENT-drums roll please: beginning with the December 87 bulletin, SPEEDX will have a new column devoted exclusively to broadcasts from the USSR-aptly called "USSR" and the new editor will be Jason Berri. Jason is a long-time A/O contributor and an authority on shortwave from the Soviet Union. So, effective immediately, please send all USSR loggings to Jason; his address is: 21240 S. Western Ave. #18, Torrance, CA 90301.

The big news from Asia this month is that the BBC has begun regular broadcasts from their relay in Hong Kong, so DXers everywhere should be able to add another tally to their country heard lists with relative ease.

No room to begin Israel here, but there is an interesting note: as I type this info on 10/15, allcasts from Kol Israel have been suspended as a result of a strike by Israeli radio & TV journalists in a dispute for higher wages. Acc. to MEDIA NETWORK, this strike may go on indefinitely as both sides are far apart in their demands (sounds like the NFL!). All that is hrd over KT SW freqs at present is a tape of their IS or just a steady tone. 31

A/0 MAILBAG: Hugh Hawkins-TX has installed an "Eavesdropper" antenna-hopefully an improvement over his 50' longwire. Bill Miller-CA kindly passed along a tape of some stns that are difficult to hear in ECNA, incl R. Veritas Asia. Toni Orr-VA now has room at his new QTH for a "giant" antenna and has noticed improved DX conditions. Wm Westenhaver-PQ is suffering thru another Canadian postal strike. Bob Zirkelbach-CA had to rely on an old DX-66 rcvr last month as his R-1000 is in the shop; says it works fine though he had no idea what freq he was tuned into! Finally, UNIVERSAL SHORTWAVE's new catalog is out w/everything you'll need to enhance your DXing; send $1 to 1280 Aida Dr, Reynoldsburg, OH 43068. Tnx to all once again and have a Happy Turkey Day! 73a,
Ray Forsgren - 4856 Inlet Drive - Chippewa Falls, WI - 54729 - USA

GARIE HALSTEAD reports hearing a station on 5610 KHz using the callsign "UK Radio". Garie wonders if anyone else has heard this station, which he monitored working Eastern Airline aircraft. Based on the content of the traffic and other factors, Garie guesses the station is located in Bermuda. Anyone else offer a solution?

UNIVERSAL RADIO of Reynoldsburg, OH has published a new "Shortwave Fall Book Bonanza" catalog of popular DX titles. Included are many Ute titles, broadcast DX, book package deals, logging sheets, etc. A good assortment, and remeber the holidays coming up for the other DXers in your life! Call 614-866-4267 or write to Fred Osterman at 1260 Aida Drive, Reynoldsburg, OH 43068

CORRECTION A little while back I described the RADIOPANORAMA RTTY magazine published by SPERDEXer Nicolas Delaunoy. At that time I misquoted the cost of the subscription. The correct prices for America: sample issue, 4 IRCs; subscription, 23 IRCs. For Europe: sample issue, 2 IRCs; subscription, 23 IRCs. Sorry about that, Nicolas and any who inquired based on my error.

THANKS to readers TIM TYLER and AL QUAGLIERI for reference materials sent to me in the past few months. I always appreciate info from my readers.

Well, that's it for this month. Don't get so wrapped up in the holidays that you forget to DX!

NOTE: CDE'S LISTINGS WERE NOT RECEIVED.
Hi gang...

Sorry about the lack of a contributors list last month, but business called! I ended up spending the entire month of September in Phoenix negotiating a contract for the IBEW, the union that represents all of the Technicians nationwide for CBS, of which I am a member. It was a long, but interesting month. If any of you have ever been involved in major contract talks you’ll know what I went through. Speak of QRM! There was lots of it coming from the company! In any case, I’m back now; still no contract however as the company and IBEW meet with a federal mediator this week (10/21). NBC/NABET’s strike is over...will we be next? Stay tuned!

The one good thing about my stay in Phoenix was to finally have a chance to meet our current President and Business Manager, Jack Sanderson. We spent a good 7 or 8 hours talking about SPEEDX, women, publishing, women, contract talks, women, DXing, women, ANARC, women, President and Business Manager, Jack Sanderson. We spent over...will we company and contract spending

Sorry about the lack of your fine loggings
 ...
Welcome aboard

We also have quite a few new and rejoining contributors to the columns...they are:

RICHARD RUSSELL ............... AL
FRED TRESCHER ............... PA

Welcome aboard the SPEEDX ship as full members, and thanks for your great support. We’ll be looking for more from you as the year winds on.

We also have quite a few new and rejoining contributors to the columns...they are:

JANET AINSWORTH ............... VA
TED GURLEY ............... TX
PHILLIP MARSHALL ............... GA
EMIL RODRIGUEZ ............... BC

Welcome aboard the contributors pages. Glad to have you here and hope to see much more of your fine loggings as time goes on. By the way, we have a few new countries represented now with these new contributors. "AG" stands for Argentina, of which Gabriel I believe is the first member from that country, and "BE" for Belize, also a first for SPEEDX. Welcome aboard Emil! Graham Bell resides in South Africa (SA), and although not a first from that country, we welcome you here none-the-less. Thank you all for contributing!

That's enough rambling for this month...take care until next month, and my best...

John

SPEEDX Member Ads

NO COLLECT CALLS ON THESE ADS! Ads are run on a first-come, first-served basis, when space is available. Ads are run for one month only. SPEEDX claims no responsibility for statements made about equipment or services in these ads. SPEEDX members only; no dealers please.
