**Countries Challenged:**
- UK = United Kingdom, F = France, G = Germany, Sr = Greece, Cy = Cyprus.
- D = Denmark, N = Norway, F = Finland, Po = Portugal, H = Holland, B = Belgium, Ir = Ireland, Sw = Sweden.
The fantastic telemarathon Live Aid certainly helped (apart from the good cause) a number of the major artists in their record career. Various albums by successful performers like U2, Phil Collins and Queen are making re-entries in our European Top 100 this week, mainly due to their resurgence in the UK following this TV performance. Especially U2 made an enormous impact and this resulted in a number of their LP's jumping up. Our three most played albums on European radio this week include Jeff Beck's latest which is strongly helped by his duet with Rod Stewart, attracting a lot of airplay.

Most probably we will find the new Pointer Sisters' album in this Top 3 next week as a lot of European program directors are reporting very strong instant reactions to this new LP. Sting's album The Dream Of The Blue Turtles continues to do well throughout Europe in spite of the fact that the single is not really happening.

As mentioned before, hard rock is not getting a lot of airplay in most European countries, but it keeps on attracting a lot of sales as can be seen in our European Top 100 where Marillion presently holds the number 10. The Scorpions number 11 and AC/DC number 18.

Both albums by The Talking Heads are going up sharply. Stop Making Sense (probably helped by the Talking Heads film now playing in most European countries). In the meantime Little Creatures has crapped up to the number 14 position and may enter the Top 10 next week.

The Dire Straits Polygram CD campaign is quietly continuing and has resulted in a major success as the Brothers in Arms album holds the top slot in its tenth week. This week the record is also number 1 in Spain, Italy, Finland and Switzerland and no.2 in the UK, Sweden, Denmark, Austria and Portugal. We wonder which super act will be sponsored by CD next?

TINA AND DAVID LOVE AFFAIR
The smashing success of Tina's 1985 world tour brought her acclaim from all corners of the world. Here is one memorable moment when she is joined by David Bowie during the Birmingham gig. We anxiously await to see her performance in the new Mad Max II film. In the meantime her single We Don't Need Another Hero from this film is one of the biggest international hits. David Bowie can also be seen with Tina on a 55 minutes video of pure live energy produced by Capitol Records and Pictura Music International and including 13 videotracks with Bowie and Bryan Adams guest starring.

SUMMER SPECIALS

A View To A Kill - Soundtrack - EMI
The first Bond soundtrack to pull a number one single hit. Apart from Duran Duran mega hit the LP again offers strong sounds from veteran producer John Barry. The film is playing all over Europe.

AC/DC - Fly On The Wall - Atlantic
The first album in two years offers very strong songs and mixes, especially good are Fly On The Wall which is the single and Stand Up.

*Till Tuesday - Voices Carry - Epic
A very fresh group including a good single hit (title tune). Also very suitable is Love In Vacuum. This new band comes from Boston and gets strong push by the recordlabel. Good new talent!
**VIDEONOTES**

There is no doubt that the Live Aid concert must be the "most recorded program on video as all our friends report. In Amsterdam and surrounding cities some part of the program were not received due to a failure of the major NOS antenna. The WE ARE THE WORLD video is the "best sold" video around the world today showing the potential competition "Making MICHAEL JACKSON'S Thriller" toppling cassette. If you go into the shops to buy the "Worlds" video (remember the income is for a very good cause) you also might want a bit of nostalgia and get the 103 minutes BEACH BOYS video-clip. It shows many memorable moments. The British plans for Direct Broadcasting by Satellite (DBS) have collapsed due to the financial risks involved and the potential small demand. The Club of 21 which include the BBC, 15 independent television companies and others like Thorn EMi decided to abandon the project. In the meantime SKY CHANNEL and PICTURE MUSIC INT. have started working on a new UK TOP 50 show which will be launched this fall. It is a co-production with the liquid Videomusik chain as well as Canadian Muchmusic. They will take the charts from MRIB and it will be directed by well-known producer Phil Bishop. Controversial reports on the new UB40 and CHRIS REEVE's HYNDIE clip for I Got You Babe. The video was edited and sent around the globe. However, on the last moment Chrissie decided she didn't like her appearance after all and ordered the video to be returned. Dutch Veronica already had the clip fixed into its Countdown show and so the Dutch audience got a rare treat.

New important clips the last few weeks include the ELTON JOHN & MILLIE JACKSON duet Act Of War as well as the new PRINCE clip Raspberry Beret, the latter produced by Linnlight. Also consider taking in your program the new video of AMAZULU Exoticat which has a wonderful atmosphere and of course THE COMMODORES with Animal Instinct. When you watch the SPRINGSTEEN video Glory Days you will find former E-Street Band member MIAMI STEVE VANDANTING as a special guest. The clip was filmed in Maxwell's bar in New Jersey. How about considering the clever Perpetual Motion from NEW ORDER which oven has a live audio track so it gives you a really unique performance. One of Europasheen's favourite new artists WHITNEY HOUSTON has a new video Saving All My Love For You. Award-winning French film-director Just Jaeckin who produced famous romantic films like Emanuelle, Lady Chatterly's Lover and The Last Romantic Lover has directed 2 music videos for new tracks of CHEAP TRICK and HERB ALPERT...

**FILM AND VIDEO COMBINATIONS**

Another good proof that film and video are intermingling more and more! As we can also see from Steven Spielberg's new movie Back To The Future. This was the base for his new video with HUEY LEWIS and looks terrific. And how about TINA TURNER'S "Mad Max" clip and last but not least JOHN PARR's filmtheme from St. Elmo's Fire which includes the whole movie cast.* While PHIL COLLINS' Don't Lose My Number is now on heavy rotation with MTV in America, most European TV producers will have to look out for the new European release Take Me Home. The video was recorded during Phil's world tour and includes shots from all five continents.

**ROCKAMERICA VIDEO SEMINAR**

When you receive this issue Rockamerica's Seminar is about to be started in New York and we salute all the video producers, directors and business people who gather for new ideas in The Big Apple. We are certainly looking forward to the further breakthrough of the compact disc technology developed by Philips in Holland which enables future CD's to carry up to 5 minutes of video. This video compact disc could become the single version and the conventional CD the LP version. So watch out for the combined laserdisc and CD player which is already sold in Japan. We will keep you informed in our next CD special.

We are back from our summer break and we needed a few hours to unpack all the wonderful new samples which were received over the last few weeks. For those of you that are continuously checking our charts you will notice that both the European Top 100 Singles and Albums have been compiled also during Eurotipsheet's absence. As you might have noticed, the hits that stayed in the top have added 3 weeks to their total. This does not apply to our European Airplay Top 50 (as during the break, we did not receive all radio playlists) so you find a fresh Top 50 this week, including a great number of new entries. It gives a good indication how fast radio playlists are changing throughout Europe.

Summer Battle

Talking about summer...the battle for the most successful summerhit of '85 is in full swing. Each year we find 1 or 2 singles from the sunny resorts in southern Europe breaking all over the continent. This year it looks like the challengers are a single originating from Greece by Sandra titled Maria Magdalena and Baltimore with Tarzan Boy and Rightiera with L'Estate Finendo both coming from Italy and Ivan, the most successful QBS act from Spain with Bala. But there are more contenders that could still enter the competition including Italy's Sandy Marton and Alloce. Live Is Life

Once again a Euro-Crossover single made it to number one in the European Top 100 and we congratulate Opus for this accomplishment, normally reserved for Anglo-American product. Opus success story has already been building for a few months but now the record is really setting extremely well in the major markets (UK-7, France-1, Germany-24). The song Live Is Life is also becoming a hit for another act. Sting which enters our charts at #2 mainly due to France. The biggest new international hit of the coming weeks undoubtedly will be We Don't Need Another Hero from Tina Turner which has already reached the top spot of our Airplay Top 50 and moved up in the European Top 100 to number 9 (from 14). Duran Duran's tribute to 007 went down to #2 this week, after having been able to be the first Bond Theme to reach number 1 both in Europe and in the USA.

Glorious Days in Heaven

It looks like Bryan Adams is going to make it in most European countries and we feel sure that his tour with Tina Turner helped strongly. His latest Heaven could bring him the deserved breakthrough. Another artist that had "quite a successful" European tour was Bruce Springsteen who makes sure his album will stay in the Top 3 due to yet another major hit Glory Days which already is no.5 on our Airplay charts. RCA will be glad with the first results on their new deal with Planet Records as the Pointer Sisters are delivering a solid hit with Dare Me. US sophisticated ladies continue to do well as was recently proven by Sister Sledge. Their Frankie was no.1 in the UK. Another US lady Laura Branigan is trying to have a Pan-European success with her new single Spanish Fly which could well happen big over the next few weeks.

DURAN DURAN MEET 007
While James Bond was waiting for A View To A Kill, Duran Duran were not only enjoying their success with the film (it is the first Bond theme that made it to no. 1 in the USA). The group is extremely active and 1985 has been the year for broadening their creative base. Simon Le Bon, Nick Rhodes and Roger Taylor recorded an independent project which will be released in September/October and is separate from their Duran Duran 5 piece unit. A new Duran Duran album is due out next year. Simon in the meantime embarked on a sailing race with a 77 foot maxi racer in the forthcoming Whitbread Round The World Race. Simon will join a 18 man crew for part of the race and will be crossing the oceans he has plenty of time to think of more creative projects, one of which is a planned international concert tour.

Album: Kid Creole & The Coconuts- In Praise Of Older Women And
Other Crimes.

LONDON CALLING
by Howard Marks
(Due to holidays this is last weeks column)
Cash, how will we cope now that Bruce has gone back to the USA, what
will we talk about, what will the newspapers report on, what will the ticket
touts do, what will the DJs talk about? Could this be the end of the
record industry as we know it? Of course not... There's always the new
record from "The Jesus And Mary Chain" to look forward too.

Some new TV shows coming up soon. A series from Border TV to
Channel 4 is "Bliss TV," and also from Manchester the BBC have "No
Limit." TVS entertain us with "Kelly's Eye," and in case you didn't know,
Channel 4' s "20/20" Southlight will begin with right through to october.
Over at Capital Radio, the best thing that has happened to U.K.
camping the last couple of years. Jessie Brandson, takes a break for the
summer. Let's hope that it will give the powers that be to return as soon as possible, and to do her stuff weekdays. Kenny Everett
returns to Capital. Jonathon King has been sitting in for Grahame
Dene, and Jessie Brandson.
Your truly found himself actually 'Live And Direct' (as they say in West
Indian slang), on the radio recently. I woke up on Radio London
reviewing several new records for Susie Barnes. Watch out... John
Sachs I'm after your gig. Talking about Radio London, Andy Peebles sat
in for Tony Blackburn recently, Tony and Dave Pierce did their shows
live from WBLS Radio in New York city, and the night out broadcast live
from a very very hot and sticky "Hammersmith Palais." Lots of faces
around that right though... Coolnotes, Imagination, Phyllis Nelson, David
Grant, Jaki Graham, Phil Fearon, Conway Brothers etc... On the TV
front there has been a lot of TV exposure for the new girl in
Bucks Fizz, Shelly Preston. The band have been on Wogan, TV-AM, and
all the news programs. Coolnotes were on Wogan, and Soutrllain, and
likewise "Arrow." Adam Ant was on TV-AM. Queen on BBC Breakfast
Time. BB King has been there for TV and radio shows, and some
concerts too. Alan Price was on TV-AM, as was Andy Summers. And
of course the greatest ever televised pop event took place with just about
every pop star in the world taking part. Congratulations to Martin Cox, who joins Radio One as a fully fledged
producer. Martin was recently at Radio Two looking after the David
Price Lorna's Sweet Soul; The Cure- In Between Days; Nick Kershaw-

**ALEXANDRA'S NEWS CORNER**

Hi there... here we are from our new wonderful offices. You simply will have to come and look as we are situated in the heart of romantic Amsterdam. But, if you think that just because Alexandra is talking to you... you are wrong!!! Alex is still getting a suntan somewhere on an exotic beach. But your wish of this weeks newsletter can assure you that his picture could never compare with our usual news gal so I will spare you my photo.

The Eurotip sheet is still trying to come over the fatigue of our moving and the Live Aid television marathon. Didn't you also like the Tina Turner/Jackie Jackson tour? And how about the Phil Collins/Sting performance? And the great Queen presentation? The JEFF BECK/ROD STEWART encounter People Get Ready really have always had a great following, actually selling more than 15 million units.

Ann and Nancy Wilson have been around since 1967 and they have always been a very strong production unit. Watch out for NIK Nevison (Led Zeppelin, The Who, Survivor) should stir a lot of positive reactions.

The new HEART album, their ninth elpee and produced by celebrated producer Ron Nevison (Led Zeppelin, The Who, Survivor) should stir a lot of positive reactions. Ann and Nancy Wilson have been around since 1967 and they have always had a great following, actually selling more than 15 million albums worldwide.

The JEFF BECK/ROD STEWART encounter People Get Ready really give me goosebumps: what a great track and what a good album.

The new NEWSWEEK coming out on the A&M label later this month*

This summer will start a new season of business seminars and music meetings. In August RockAmerica presents its second video seminar in New York City. It is followed by Musesoex 86 which this time takes place in London and will have a number of artist showcases, putting special emphasis to new artists and groups. The acts are being selected by Harvey Goldsmith. At the same time they will present the first International Music Video Festival (BNN). We are already looking forward to the sixth New Music Seminar which really has become the American counterpart for MIDEM, NMS will have more international participation than before and is always interesting to pick up new ideas. Note the dates in your diary: September 25th till 28th in New York. Now that EMI acquired the Spanish label Hispavox it might contribute to more international successes for Spanish recordings. Hispavox has always been a very strong production unit. Watch out for NIK Nevison's new single Don Quixote which will undoubtedly be all over the airwaves in Europe again. Frank Zappa is doing nothing great at the moment! With DURAN DURAN's A View To A Kill on top and another...

* PAUL HARDCASTLE has his hit "19" even twice on the German charts as he has also released a German language version.

* Don't you all love this new Tina single? I cordially agree with your title (We Don't Need Another Hero) as I am trying to convince Alexandra that I'd be her next hero. SAXON have a new album called Innocence Is No Excuse to be released in September in combination with a major UK tour. This week should see the release of the first single from that album called Back On The Street. It's good to see JAKI GRIFFIN making it on her own after her duet with DAVID GRANT. The lady was born in Birmingham but has Jamaican parents. She started her career after her colleagues at the City Center Office (where she was working) persisted that she should audition for a band after hearing her singing! So maybe there is still a chance for me to get out of the editorial office of Eurotipsheet. I'll start singing right away! The new HEART album, their ninth elpee and produced by celebrated producer Ron Nevison (Led Zeppelin, The Who, Survivor) should stir a lot of positive reactions. Ann and Nancy Wilson have been around since 1967 and they have always had a great following, actually selling more than 15 million albums worldwide.

away, Roger has been extended. Let me put that another way, Roger Scott Show has been given an extra half hour, and Roger has been playing some wonderful hits from years gone by. Keep it up Roger, great stuff.

It was the anniversary recently of the first ever broadcast of the first British Disc Jockey. The date was July 7th 1927, the gramophones records were played by Mr. Christopher Stone, who chatted between the discs...You know the sort of thing that John Sacks has also been doing since 1927.

Check these sounds, in the shops round about now...Melle Mel, Prince, Madonna, Tina Turner, Untouchables, S Star, Sparks, who have been away for a long time. There is also a new single from Ward Al Yankovic. Look out for singles from The Cure, Jimmy Ruffin, Phil Collins and many more.

Live shows coming up from Mst Tai, The Cure, Icepe Works, Marillion will be at the Donnington Festival, and for those who want to start organizing themselves for the present box at Wimbledon Arena. Paul Young begins his tour there on December 3rd.

I must apologize, I forgot to mention a couple of other television programs. There is "Swank", a music and fashion show. There is also a programme on BBC television called "The Rock & Roll Years" which shows film of the news events of a certain year and plays the hits of that year. Coming up soon is the re-scheduled Mid-Summers Night Tube Show.

Finally, guest recently over at Sky Trax have included Nick Heywood, David Grant, Tony, Animal Nightlife, Owen Paul, Steve Arrington, Conway Brothers and Jaki Graham. Thereza Bazar co hosted a couple of shows, Clive Grifflin of Video Music was in to broad four shows. Linda de Mio was in from Holland for some shows, and Nino has been hosting a live show from Xenon. Amanda Redington has put together a "DID" special and Pat Sharp has hosted a special on "Messical". Annasulo also popped in to show their new video.
