THE POST OFFICE ELECTRICAL ENGINEERS' JOURNAL

The Post Office Electrical Engineers' Journal is published quarterly, in April, July, October and January, price 2/6 (3/6 post paid) per copy or 14/- per year, post paid (2 dollars 25 cents, Canada and U.S.A.). Orders should be sent to The Post Office Electrical Engineers' Journal, G.P.O., 2-12 Gresham Street, London, E.C.2. Employees of the British Post Office can obtain the Journal from local agents.

With each number of the Journal is issued a free Supplement giving model answers to the examination papers in telecommunications subjects set by the City and Guilds of London Institute.

NOTES

1. Articles are indexed under the first word of the title, under other key words and under each author's name.
2. The titles of the individual parts of multi-part articles are given following the entry under the first word of the main title.
3. Notes and short articles, usually less than one page, are denoted by (S).
4. Authors' names are printed in large and small capital letters.
5. The Post Office Electrical Engineers' Journal is published in April, July, October and January, the pages in each part of Volumes 39-50 being as follows.
