MUSICIANS

COMPUTER MUSIC SYSTEM FOR SALE. A computer by Texas Instruments, Inc., includes a 3 voice music synthesizer chip. Use of the computer on stage will not interfere with your playing another instrument. I have developed computer programs to convert the computer's keyboard into a 5 1/2 octave music instrument for fast, play by ear, song entry in any music key. Songs entered this way may be saved on floppy disk for later performances. Slow to medium fast songs only. Music entry uses one voice with the computer generating the harmony. A complete system costs under \$2,800.00. Dealer inquiries also invited. For more info, write: James Harvey, 159 Dover Rd., Spartanburg, S.C. 29301.
