R&R's Exclusive Look At The Cutting Edge Of Alternative

### Off To NYC

OK, my good people, I am writing this with a smile on my face, because I am New York-bound. Why, you ask? Well, mostly because we have a long weekend and I decided to make it worthwhile, but also to meet up with some of my fave East Coast label folks and catch a couple of massive shows.

I will be meeting up with Smitty from Artemis so that we can take in the monster sounds of Spacehog and a cocktail (or a few) at the Mercury Lounge. Then (after some much-needed rest from the previous night's redeye flight) I'm off to start my weekend right. Jessica Siracusa from Universal is taking me to see their new megaband, Powderfinger, who are playing at Irving Plaza with Coldplay. This is a show I know will be amazing. I have heard nothing but good things about Powderfinger, and you all know what a Coldplay freak I am. I will be sure to tell you all about the Big Apple excursion and, hopefully, have

some photos for your viewing pleasure when I return. Oh, and since I always tell you what music I will be taking along with me on the plane, I wouldn't think about leaving without my Donnas record (chick rock that rocks), as well as the Doves record to give myself a nice balance.

Boy, was the chart close this week! Living End roll onto the chart, making their debut at No. 1, while Powderfinger pull in a very, very close (by one station) No. 2 with their soon-to-be smash, "My Happiness." Following in the race are BS2000 at No. 3, a spot they have held for two weeks running now. Creeping up

four spots from last week to No. 5 are Creeper Lagoon. Other debuts on the chart this week are Gary Numan, with "Listen To My Voice" raking in enough spins to come in at No. 13, Boy Hits Car at No. 19, and rockers Buckcherry rounding out the chart at No. 20. Records of the Week: Donnas and Rivington
