Wait. Don't Touch That Keyboard!

Touch DAD's screen instead.

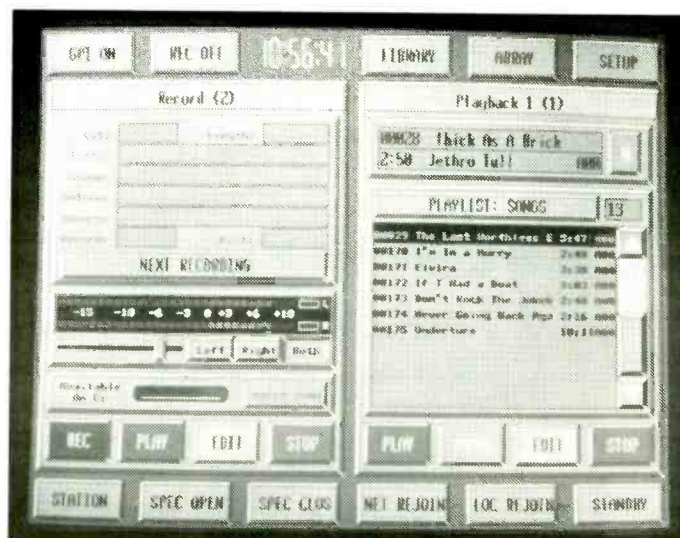

ENCO's DAD486x Digital Audio Delivery System really performs at your fingertips. Eliminate the expense of operating and maintaining traditional cartridge machines.

Improve your audio and your bottom line. Because DAD's advanced production and operating features are so intuitive and easy to understand, your system will begin to pay for itself as soon as it's installed.

A DAD system can be configured to fit your specific needs and your budget. Add additional channels and workstations as your needs grow.

The number of playlists you can store in DAD's memory is unlimited. And its powerful ARRAY feature puts 144 audio events at your fingertips for instant playback.

No cart machines...No tapes...No keyboard...No computer wizards...No hassle. Just one free phone call, DAD's touch screen and your imagination.
