París—Stephen Stills & Manassas did a concert at the Bastille Railroad Station on October 5; the event was organized by the Olympia. Police admitted only 4,000 attendants for security reasons in a hall normally holding double that number. Police is releasing a new album by Melina Mercouri entitled "L'oiselet Rouge." Also released was Zappa's lp "Reuben & The Jets." Mort Schuman, well known for his work with Elvis Presley and his stage show for Jacques Brel, recorded an album at the CBE Studios in Paris in June; it has now been released on Phonogram. Besides this French version, Mort also did an English version, to be released in the U.S. and U.K. Words are by Etienne Roda-Gil, while the arrangements are by Schuman and Jean-Claude Petit. Schuman, who is now residing in France, wanted to portray an American devoid of the usual mistaken clichés; it is in our opinion a very beautiful work.
